ANONİM ŞİRKETİ**

**FINANCIAL STATEMENTS AS OF  
JUNE 30, 2016 AND INDEPENDENT AUDITOR'S REVIEW REPORT**

## Independent Auditor's Review Report

To the Board of Directors of

AvivaSA Emeklilik ve Hayat Anonim Şirketi:

### Introduction

We have reviewed the accompanying financial statements of AvivaSA Emeklilik ve Hayat Anonim Şirketi ("the Company"), which comprise the statement of financial position as at June 30, 2016, and the statement of profit or loss, other comprehensive income, changes in equity and statement of cash flows for the period then ended, and a summary of significant accounting policies and other explanatory information. Management is responsible for the preparation and fair presentation of this interim financial information in accordance with International Financial Reporting Standards. Our responsibility is to express a conclusion on this interim financial information based on our review.

### Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, Review of Interim Financial Information Performed by the Independent Auditor of the Entity. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial information does not present fairly, in all material respects, the financial position of the Company as at June 30, 2016 and of its financial performance and its cash flows for the six months period then ended in accordance with International Financial Reporting Standards.

### Emphasis of Matter

Prior period financial statements have been restated as explained in Note 1.1.

Istanbul, August 9, 2016

## NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED JUNE 30, 2016

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated.)

### 1. General Information

#### 1.1 Restatement to Prior Year Financial Statements

During the course of 2016 it was determined that the Company’s accounting policy in respect of Return of Life Insurance Policies had resulted in a mismatch of the recognition of premium income and the related actuarial reserves, causing a net overstatement of the 2015 net result and a net understatement of the unpublished 2016 result for the period ending 30 June 2016.

The policy has been amended to ensure the appropriate matching of revenue and related reserves and other costs. Consequently the above 2015 comparative financial statements have been retrospectively restated to reflect the financial position and the net result in accordance with the amended accounting policy. The 2016 financial statements are in accordance with the current policy. The amendments to the 2015 statements are set out below:

<b>31 December 2015</b>	<b>Previously Reported</b>	<b>Effect of Restatement</b>	<b>Restated</b>

## NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED JUNE 30, 2016

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated.)

### 1. General Information (continued)

#### 1.2. Corporate Information

AvivaSA Emeklilik ve Hayat Anonim Şirketi (“the Company”) was established on October 31, 2007 by the merger of Ak Emeklilik Anonim Şirketi (“Ak Emeklilik”) with Aviva Hayat ve Emeklilik Anonim Şirketi (Aviva Emeklilik).

Ak Emeklilik was established in Istanbul on December 6, 1941 with the title of Doğan Sigorta A.Ş. On October 3, 1995, the title of Doğan Sigorta A.Ş. was changed as to “Akhayat Sigorta Anonim Şirketi” and declared on the Trade Registry Gazette.

Akhayat Sigorta Anonim Şirketi was transformed into a pension company with the official letter of the Republic of Turkey Prime Ministry Undersecretariat of Treasury (the “Undersecretariat of Treasury”) dated December 3, 2002 numbered 77941.

Based on the decision of the Board of Directors of Akhayat Sigorta Anonim Şirketi dated December 11, 2002 numbered 26 and the Extraordinary General Meeting held on January 23, 2003, it has been decided to amend the articles of association for change in company title and scope of the operations and to add Article 40 related to Pension Investment Fund Portfolio and Portfolio Managers. The title of Akhayat Sigorta Anonim Şirketi has been changed as “Ak Emeklilik Anonim Şirketi” and declared on Trade Registry Gazette dated January 31, 2003 numbered 5730.

Following the frame agreed upon the merger contract dated July 27, 2007 and pursuant to Turkish Commercial Code Article 451 and Corporate Tax Law Article 19-20, Ak Emeklilik has acquired Aviva Emeklilik together with all assets and liabilities as a whole through dissolution without liquidation. Ak Emeklilik has become the successor of Aviva Emeklilik. Merger transaction has been realized pursuant to valuations of expert committee assigned by Decision No. 2007/876 D. of Kadıköy Commercial Court of First Instance No. 3 dated July 11, 2007 with the expert report dated 16 July 2007 based on balance sheets of Ak Emeklilik and Aviva Emeklilik as of 31 May 2007 together with other information. This merger has been published on Trade Registry Gazette No. 6930 dated on November 6, 2007 and new title of the Company was announced as “AvivaSA Emeklilik ve Hayat Anonim Şirketi”.

After the merger, shareholders of the Company are Aviva International Holdings Limited (“Aviva International”) (49.83% share ratio) and Aksigorta Anonim Şirketi (“Aksigorta”) (49.83% share ratio).

Aksigorta Anonim Şirketi transferred its shares of AvivaSA Emeklilik ve Hayat A.Ş. to Hacı Ömer Sabancı Holding A.Ş. within the scope of clause “b” of Paragraph 3 of Article 3 of Corporate Tax Law numbered 5520 and under the provisions of "Partial Division of Corporations and Limited Liability Companies Procedures and Operations Joint Communiqué on Principles of Editing" published in the Official Gazette No. 25230 dated 16.09.2003. The transfer was registered and announced on January 12, 2010 and published in the Trade Registry Gazette No. 7481 dated January 18, 2010.

Aviva International Holdings Limited transferred its shares of AvivaSA Emeklilik ve Hayat A.Ş. to Aviva Europe SE on October 28, 2011.

The main shareholders of the Company are Aviva Europe SE and Hacı Ömer Sabancı Holding A.Ş. The Company operates as a joint venture. Aviva Europe SE and Hacı Ömer Sabancı Holding A.Ş.; each held 49.83% of the shares before offering 19.67% of the shares of the Company to public on November 13, 2014. As a result of the initial public offering, the shares of the Company have been listed on Borsa İstanbul A.Ş. (“BIST”) as of November 13, 2014. After the price stabilization activities, the Company’s main shareholders’ share in partnership were 41.28% each and the percentage of shares which are publicly traded were 17.28%.

Aviva Europe SE has transferred 1,477,063,650 shares each worth TL0.01 with a nominal value of TL 14,770,636.50 to Aviva International Holdings Limited on July 15, 2015. After this transfer, the share of Aviva Europe SE decreased to %0, while share of Aviva International Holdings Ltd. increased to %41.28.

Hacı Ömer Sabancı Holding A.Ş. sold its shares with the nominal value of TL 458,956 in BIST on August 5, 2015 and after this disposal, its share in AvivaSA Emeklilik ve Hayat A.Ş. decreased to 40%.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED JUNE 30, 2016

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

### 1. General Information (continued)

#### 1.2. Corporate Information (continued)

Aviva International Holdings Ltd. sold its share with the nominal value of TL 458,956 in BIST on August 5, 2015 and after this sale its share in AvivaSA Emeklilik ve Hayat A.Ş. decreased to 40%.

On July 28, 2015, The Board of Directors of AvivaSA Emeklilik ve Hayat A.Ş has unanimously resolved to increase the Company's issued capital from TL 51,971,980 to TL 118,000,000 by transferring TL 66,028,020 from other capital reserves to share capital.

As of June 30, 2016 19.87% of the company's share have been listed on the Borsa Istanbul ("BIST").

The Company is engaged in pension business and life insurance. The Company also issues insurance policy for personal accidents.

On July 7, 2003, Ak Emeklilik acquired a pension operating license from the Undersecretariat of Treasury to operate in the pension branch. The individual pension investment funds were registered by the Capital Market Board (CMB) on September 26, 2003 and the sale of pension products started as of October 27, 2003.

On August 26, 2003, Aviva Emeklilik acquired a pension operating license from the Undersecretariat of Treasury to operate also in the pension branch. The individual pension investment funds were registered by the Capital Market Board (CMB) on October 27, 2003, the individual retirement plans were approved on December 12, 2003 and the sale of pension products started as of December 15, 2003. In accordance with the decree of the Board of Directors dated October 8, 2007 and numbered 15, it was decided that the pension investment funds of Aviva Emeklilik shall be transferred to Ak Emeklilik as of October 31, 2007. The pension funds of the Company have been managed by Ak Portföy as of November 1, 2007. AvivaSA Emeklilik ve Hayat A.Ş. Büyüme Amaçlı Performans Esnek Emeklilik Yatırım Fonu, established as of December 20, 2011, started to be managed by Ata Portföy.

In accordance with the permission acquired from CMB dated November 20, 2008 and numbered 15-1098, the names of Pension Investment Funds have been changed. The amendments were put into practice as of December 5, 2008.

As of June 30, 2016, there are 23 pension investment funds established by the Company (December 31, 2015: 23 pension funds). The pension investment funds established by the Company are as follows:

## NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED JUNE 30, 2016

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated.)

### 1. General Information (continued)

#### 1.2. Corporate Information (continued)

There are no entities controlled or jointly controlled by the Company (December 31, 2015: None). The Company’s management analysed their relationship with the pension investment funds under IFRS 10, 11, and 12, and concluded the Company has no control over the pension investment funds.

The average personnel number of the Company is 1,624 employees as of June 30, 2016 (December 31, 2015: 1,590).

The registered office of the Company is Saray Mahallesi Dr. Adnan Büyükdeniz Caddesi No: 12, 34768 Ümraniye, Istanbul – Turkey.

The accompanying financial statements of AvivaSA Hayat ve Emeklilik Anonim Şirketi for the period ended June 30, 2016 were authorised for issue in accordance with a resolution of the directors on August 9, 2016.

### 2. Accounting policies

#### 2.1 Basis of preparation

The financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values. Historical cost is generally based on the fair value of the consideration given in exchange for assets.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

# AvivaSA Emeklilik ve Hayat A.Ş.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED JUNE 30, 2016

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

### 2. Accounting policies (continued)

#### 2.2 Summary of significant accounting policies

##### a) Gross written premiums

Written premiums represent the policies on cancellations from prior years and premiums ceded to reinsurers and after tax deduction in addition to the policies written in the current year. Annual, long term and saving policies are accounted according to the accrual basis. For unit-linked life savings policies, premiums are recognized on a collection basis.

##### b) Premiums ceded to reinsurers

Premiums ceded to reinsurers consist of the premiums that are attributable to reinsurers in accordance with the provisions of the respective reinsurance contracts.

##### c) Net change in provision for unearned premium reserves

The portion of written premiums attributable to subsequent periods (gross of commission payable to intermediaries) is deferred as a provision for unearned premiums. The change in this provision is recognized as revenue in the statement of profit or loss over the period of risk.

Unit-linked life savings policies (except for a small amount of mortality deductions relating to the life savings business) and long-term life insurance policies are not subject to unearned premium reserves.

##### d) Net change in mathematical reserves

Life insurance mathematical reserves are calculated according to actuarial principles on a prudent basis in order to ensure liabilities are fully met for policies longer than one year. Mathematical reserves are calculated on a prospective basis as the difference between the present value of liabilities and future premiums to be paid by the policyholders. The change in this provision is recognized as revenue in the statement of profit or loss over the period of risk.

##### e) Income generated from pension business

Fees received from the pension business consist of (i) fund management fees, (ii) management fees from contributions, (iii) premium holiday charges and (iv) entry and deferred entry fees. Revenues arising from fund management and other related services offered by the Company are recognized in the accounting period during which the service is rendered.

# AvivaSA Emeklilik ve Hayat A.Ş.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED JUNE 30, 2016

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated.)

### 2. Accounting policies (continued)

#### 2.2 Summary of significant accounting policies (continued)

##### e) Income generated from pension business (continued)

Fund management fees, which are calculated with reference to assets under management, are attributable to the hardware, software, personnel and accounting services provided to pension funds. Management fees from contributions are attributable to the operational costs of the services rendered to customers by the Company and can be deducted from the participants’ contributions. Premium holiday charges may be received when the participant does not pay his or her regular premium within three months of being due. Entry fees are fees received from the participant when he or she first enters the pension system and from any participants who have already entered into the system but create a new account in another pension company. Deferred entry fees may be charged to the participant and recorded as income in the event that he or she exits, merges or transfers accounts within the context of conditions defined in the contract as of the effective date of contract.

Pension fees are subject to limitations and caps in the form of maximum fees collectible from pension customers set out in the local regulation on pension system.

##### f) Investment and other income (expense), net

Investment and other income (expense), net comprises interest income, net profit and loss on realization, dividend income, other income and expenses and investment management expenses.

Interest income is recognized in profit or loss using the effective interest method. The effective interest rate is the rate that exactly discounts the estimated future cash receipts through the expected life of the financial asset (or, where appropriate, a shorter period) to the carrying amount of the financial asset.

The calculation of the effective interest rate includes all fees and points paid or received transaction costs, and discounts or premiums that are an integral part of the effective interest rate. Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset.

Interest income presented in the statement of comprehensive income includes:

- interest on financial assets at amortized cost on an effective interest rate basis,
- interest on available-for-sale financial assets on an effective interest rate basis,
- interest earned till the disposal of financial assets at fair value through profit or loss.

Net profit and loss on realization includes gains and losses arising from disposals of financial assets at fair value through profit or loss and available-for-sale financial assets.

##### g) Commission income and commission expenses

The Company receives commission income from reinsurance companies in respect of the ceded premiums in its life protection, personal accident and life savings business segments. Commission income is recognized on an accrual basis.

Commission expenses include third-party commissions paid in respect of the distribution of the Company’s life protection, life savings and personal accident business products through external channels including banks, agencies and brokers, and change in deferred acquisition costs. It does not include any distribution commissions for pension products, which are recorded separately under pension expenses including commissions. Commission expenses are recognized on an accrual basis.

# AvivaSA Emeklilik ve Hayat A.Ş.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED JUNE 30, 2016

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated.)

### 2. Accounting policies (continued)

#### 2.2 Summary of significant accounting policies (continued)

##### h) Claims paid and change in outstanding claims provisions

Claims are recognized in the period in which they occur, based on reported claims or on the basis of estimates when not reported. The claims provision is the total estimated ultimate cost of settling all claims arising from events, which have occurred up to the end of the accounting period. Full provision is accounted for outstanding claims, including claim settlements reported at the period-end. Incurred but not reported claims are also provided for under the provision for outstanding claims, presented in insurance contract liabilities.

##### i) Pension expenses including commission

Pension business expenses primarily consist of (i) pension business commissions paid to third parties, (ii) fund management charges paid to asset management companies, (iii) service charges of the Pension Monitoring Center (EGM) and Takasbank, the custodian bank of pension funds and (iv) other pension business-related expenses.

Commissions paid to banks and agencies for distribution of the Company’s pension products are recognized (net of deferred acquisition cost) under pension expenses. As required under Turkish pension regulations, the Company’s pension funds are managed by third party asset manager(s) who receive asset management fees according to the terms specified in the agreement signed between the parties and such management fees are recorded under pension expenses.

##### j) Cash and cash equivalents

In terms of presentation of cash flow statement, cash and cash equivalents comprise cash at hand, demand deposits and other short-term highly liquid investments with original maturities of three months or less, which are readily convertible to cash and are subject to an insignificant risk of changes in value.

##### k) Property and equipment

The costs of the property and equipment purchased before January 1, 2006 are restated for the effects of inflation in TL unit current at December 31, 2005 pursuant to IAS 29. The property and equipment purchased subsequent to this date are recorded at their historical cost. Accordingly, property and equipment are carried at cost, less accumulated depreciation and impairment losses. Depreciation is calculated using the straight-line method to write down the cost of such assets to their residual values over their estimated useful lives as follows:

	<b>Useful Life</b>
Furniture and fixtures	2-15 years
Other tangible assets	4-5 years
Leasehold improvements	5 years or term of rent contract

# AvivaSA Emeklilik ve Hayat A.Ş.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED JUNE 30, 2016

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated.)

### 2. Accounting policies (continued)

#### 2.2 Summary of significant accounting policies (continued)

##### k) Property and equipment (continued)

Where the carrying amount of an asset is greater than its estimated recoverable amount (higher of net selling price and value in use), it is written down immediately to its recoverable amount. Gains and losses on disposal of property and equipment are determined by reference to their carrying amount and are taken into account in determining operating profit.

##### l) Leases as lessee

Leases in which a significant portion of the risks and rewards of ownership are retained by the lessee are classified as financial leases while other leases are classified as operational leases.

The payment of the operational lease is charged to profit or loss on a straight-line basis over the lease period. The incentives received or to be received from the lessor and payments made to intermediaries to acquire the lease contract are also charged to profit or loss on a straight-line basis over the lease period. As at June 30, 2016 and December 31, 2015 details of the outstanding operational lease liability has been disclosed in Note 35.

##### m) Intangible assets

Intangible assets mainly comprise computer software. They are recorded at acquisition cost and amortized on a straight-line basis over their estimated useful lives for three years from the acquisition date. Where an indication of impairment exists, the carrying amount of intangible assets is assessed and written down immediately to its recoverable amount.

Construction in progress refers to the Company’s software development project started in 2012 to unify the basic insurance applications used within the structure of the Company and to use such applications by integration to all the surrounding systems. Personnel expenses and cost of the outsourced services associated directly with the development of the application are capitalised as incurred.

##### n) Financial instruments

###### *Recognition*

The Company initially recognizes loans and advances on the date which they are originated. Regular way of purchase and sales of financial assets are recognized on the trade date which the Company commits to purchase or sell the asset. All other financial assets and liabilities are initially recognized on the trade date at which the Company becomes a party to contractual provisions of the instrument.

###### *Classification*

The Company classifies its investments into the following categories: financial assets at fair value through profit or loss, loans and receivables, and available-for-sale financial assets. The classification depends on the purpose for which the investments were acquired. Management determines the classification of its financial assets at initial recognition and re-evaluates this at every reporting date.

**Financial assets at fair value through profit or loss:** Financial asset is classified into this category at inception if acquired principally for the purpose of selling in the short term, or if it forms part of a portfolio of financial assets in which there is evidence of short term profit making.

# AvivaSA Emeklilik ve Hayat A.Ş.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED JUNE 30, 2016

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated.)

### 2. Accounting policies (continued)

#### 2.2 Summary of significant accounting policies (continued)

##### n) Financial instruments (continued)

###### *Classification (continued)*

**Available-for-sale financial assets:** Available-for-sale (“AFS”) financial assets intended to be held for an indefinite period of time, which may be sold in response to needs for liquidity or changes in interest rates, exchange rates or equity prices, are classified as available-for-sale. Assets backing long term insurance contracts are classified as available-for-sale financial assets in the accompanying financial statements.

**Financial investments with risks on policyholders classified as available for sale:** Financial investments with risks on policyholders classified as available for sale consist of public securities, foreign currency Eurobonds and time deposits.

**Loans and receivables:** Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market other than those that the Company intends to sell in the short term or that it has designated as at fair value through profit or loss or available-for-sale. They arise when the Company provides money, goods and services directly to a debtor with no intention of trading the receivable.

**Financial liability:** Financial liability is any liability that is a contractual obligation to deliver cash or another financial asset to another entity.

###### *Measurement*

A financial asset or liability is measured initially at fair value plus, for an item not at fair value through profit or loss, transaction costs that are directly attributable to its acquisition or issue.

Subsequent to initial recognition, financial assets at fair value through profit or loss and available-for-sale financial assets are measured at fair values, except that any equity instrument that does not have a quoted market price in an active market and whose fair value cannot be reliably measured is stated at cost.

Gains and losses arising from changes in the fair value of financial assets at fair value through profit or loss are recognized in the statement of comprehensive income in the period in which they arise. Unrealized gains and losses arising from changes in the fair values of available-for-sale financial assets are recognized in equity as “Fair value reserves from available-for-sale financial assets”. When available-for-sale financial assets are sold or impaired, the accumulated fair value reserves under equity are transferred to the statement of comprehensive income as net realized gains/losses on financial assets.

All non-trading financial liabilities, loans and receivables are measured at amortized cost less impairment losses, if any. Amortized cost is calculated on the effective interest method. Premiums and discounts, including initial transaction costs, are included in the carrying amount of the related instrument and amortized based on the effective interest rate of the financial instruments.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED JUNE 30, 2016

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated.)

### 2. Accounting policies (continued)

#### 2.2 Summary of significant accounting policies (continued)

##### n) Financial instruments (continued)

###### *Fair value measurement principles*

The fair value of financial instruments is based on their quoted market price at the reporting date without any deduction for transaction costs. If a quoted market price is not available, the fair value of the instrument is estimated using pricing models or discounted cash flow techniques. Where discounted cash flow techniques are used, estimated future cash flows are based on management’s best estimates and the discount rate is a market related rate at the reporting date for an instrument with similar terms and conditions. Where pricing models are used, inputs are based on market related measures at the reporting date.

###### *Derecognition*

A financial asset is derecognized when the control over the contractual rights that comprise that asset, is lost. This occurs when the rights are realized, expire or are surrendered. The Company derecognizes a financial liability when its contractual obligations are discharged or cancelled or expired.

Available-for-sale financial assets and financial assets at fair value through profit or loss that are sold are derecognized and corresponding receivables from the buyer for the payment are recognized as at the date the Company commits to sell the assets. The specific identification method is used to determine the gain or loss on derecognition.

###### *Offsetting*

Financial assets and liabilities are offset and the net amount is reported in the statement of financial position when there is a currently enforceable legal right to set off the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously.

##### o) Impairment of financial assets

###### *Premium and other insurance receivables*

In determining whether an impairment loss should be recorded in profit or loss, the Company makes judgments as to whether there is any observable data indicating that there is a measurable decrease in the estimated amounts recoverable from a portfolio of premiums and other insurance receivables and individual premiums. Objective evidence that a financial asset or group of assets is impaired includes observable data that comes to the attention of the Company about the following loss events:

- (a) significant financial difficulty of the agency or debtor;
- (b) the Company granting to the agency, for economic or legal reasons relating to the agency’s financial difficulty, a concession that the lender would not otherwise consider;
- (c) it is probable that the agency will declare bankruptcy or enter into other financial reorganization;
- (d) the disappearance of an active market for the related financial asset because of financial difficulties; or
- (e) observable data indicating that there is a measurable decrease in the estimated future cash flows from a group of financial assets since the initial recognition of those assets, although the decrease cannot yet be identified with the individual financial assets in the group, including:
  - (i) adverse changes in the payment status of agencies; or
  - (ii) national or local economic conditions that correlate with defaults on the assets in the group.

# AvivaSA Emeklilik ve Hayat A.Ş.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED JUNE 30, 2016

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated.)

### 2. Accounting policies (continued)

#### 2.2 Summary of significant accounting policies (continued)

##### o) Impairment of financial assets (continued)

###### *Premium and other insurance receivables (continued)*

If there is objective evidence that there occurs an impairment loss on receivables, the amount of the loss is measured based on the difference between the asset’s carrying amount and the estimated recoverable amount. The carrying amount of the asset is reduced through the use of an allowance account. The amount of the loss is recognized in profit or loss.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized (such as an improvement in the debtor’s credit rating), the previously recognized impairment loss is reversed by adjusting the allowance account. Any subsequent reversal of impairment loss is recognized in the statement of comprehensive income, to the extent that the carrying value of the asset does not exceed its cost at the reversal date.

A write off is made when all or part of a premium receivable is deemed uncollectible or in the case of debt forgiveness. Such premium receivables are written off after all the necessary procedures have been completed and the amount of the loss has been determined. Write offs are charged against previously established allowances and reduce the amount of the insurance receivable. Subsequent recoveries of amounts previously written off are included in statement of profit or loss.

The methodology and assumptions used for estimating both the amount and timing of recoverable amounts are reviewed regularly to reduce any differences between loss estimates and actual loss experience.

###### *Available-for-sale financial assets*

If an available-for-sale investment security is impaired, an amount comprising the difference between its cost (net of any principal payment and amortization) and its current fair value, less any impairment loss previously recognized in profit or loss, is transferred from equity to the profit or loss. Reversals of impairment losses on debt instruments are reversed through profit or loss; if the increase in fair value of the instrument can be objectively related to an event occurring after the impairment loss was recognized in profit or loss.

###### *Reinsurance assets*

If the reinsurance asset is impaired, the Company reduces its carrying amount accordingly and recognizes that impairment loss in the statement of profit or loss. A reinsurance asset is impaired if, and only if:

- (a) there is objective evidence, as a result of an event that occurred after initial recognition of the reinsurance asset, that the Company may not receive all amounts and
- (b) that event has a reliably measurable impact on the amounts that the Company will receive from the reinsurer.

An insurance contract is a contract under which the Company accepts significant insurance risk from another party (the policyholder) by agreeing to compensate the policyholder if a specified uncertain future event (the insured event) adversely affects the policyholder. Insurance risk covers all risks except for financial risks. All premiums written within the coverage of insurance contracts are recognized as revenue under “written premiums” account.

Investment contracts are those contracts which transfer financial risk without significant insurance risk. Financial risk is the risk of a possible future change in a specified interest rate, financial instrument price, commodity price, foreign exchange rate, index of prices or rates, credit rating or credit index or other variable, provided, that it is not specific to a party to the contract, in the case of a non-financial variable.

# AvivaSA Emeklilik ve Hayat A.Ş.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED JUNE 30, 2016

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated.)

### 2. Accounting policies (continued)

#### 2.2 Summary of significant accounting policies (continued)

##### o) Impairment of financial assets (continued)

###### *Insurance contracts*

Insurance contracts are contracts that provide protection to the insured against adverse economic consequences of an event of loss as covered under the terms and conditions stipulated in the insurance policy according to IFRS 4.

Financial Guarantee Contract is a contract which requires that the issuer make specific payments to reimburse the holder for the loss incurred by the debtor when a specific breach of its obligation to pay, in accordance with the conditions, original or amended, of a debt instrument.

According to IFRS 4, financial risk is the risk posed by a possible future change in one or more of the following variables: an interest rate specified the price of a financial instrument, the price of a commodity trading, an exchange rate, a price index or interest, a credit rating or an index or other variable. If this is a nonfinancial variable, it is necessary that the variable is not specific to one of the parties to the contract.

According to this, insurance contracts include changes in market prices, as well as insurance risk.

Some policies (Saving Life Policies) of the Company include financial return in addition to insurance risk and carry financial risk, accordingly. However these contracts are defined as insurance contracts also and accounted in this context. Because there are no contracts with a stand-alone financial risk in the Company’s portfolio and contracts carry significant insurance risk, mentioned policies are within the context of insurance contracts.

All policies in the Company portfolio are treated as insurance contracts.

##### p) Liability adequacy test

At each reporting date, an assessment is made of whether the recognized long-term business provisions are adequate, using current estimates of future cash flows. A liability adequacy test is required to ensure that losses do not remain unrecognised.

- a) the test considers current estimates of all contractual cash flows, and of related cash flows such as claims handling costs, as well as cash flows resulting from embedded options and guarantees; and
- b) if the best test shows that the liability is inadequate, the entire deficiency is recognised in profit or loss.

# AvivaSA Emeklilik ve Hayat A.Ş.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED JUNE 30, 2016

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated.)

### 2. Accounting policies (continued)

#### 2.2 Summary of significant accounting policies (continued)

##### q) Deferred expenses

##### Deferred acquisition costs (DAC)

Those direct and indirect costs incurred during the financial period arising from the writing or renewing of insurance contracts, are deferred to the extent that these costs are recoverable out of future premiums. All other acquisition costs are recognised as an expense when incurred.

Incremental direct costs resulting from and essential to the contract transaction are subject to deferral. During the deferral of salaries, benefits and other costs, two criteria are evaluated and should be met; must have a direct role in acquisition activities and must be an essential activity resulting in the contract being issued. The Company management has identified that the following expenses met these criteria and thus are subjected to deferral:

- Stand-alone direct sales force sales teams and sales managers’ commissions
- Bancassurance coaches’ and sales managers’ commissions
- Corporate sales teams commissions
- Third party, Akbank T.A.Ş. and agency commissions

Subsequent to initial recognition, DAC for life insurance are amortised over the expected life of the contracts as a constant percentage of expected premiums. DAC for personal accident insurance products are amortised over the period in which the related revenues are earned. The reinsurers’ share of deferred acquisition costs is amortised in the same manner as the underlying asset amortisation is recorded in profit or loss.

Deferral periods can be the average life-time of the contracts (which are longer than the lapse assumptions). The Company management has determined the period as nine years and amount of DAC is subject to Liability Adequacy Test each year. The Company has applied straight line method for the amortisation of DAC which is nine years.

##### r) Provision for unearned premiums

The proportion of written premiums, gross of commission payable to intermediaries, attributable to subsequent periods is deferred as a provision for unearned premiums. The change in this provision is taken to profit or loss as recognition of revenue over the period of risk.

Unearned premium reserve is calculated on a daily basis for all policies in force as of statement of financial position date for unearned portions of premiums written, except for marine premiums issued before 14 June 2007. During the calculation of unearned portion of premiums written on a daily basis, it is supposed that the policies start at 12:00 noon and end at 12:00 noon again. Unearned premium reserve and the reinsurers’ share of the unearned premium reserve for policies, are calculated and recorded as the deferred portion of the accrued premiums related to the policies in force and ceded premiums to reinsurers without deducting commissions or any other deduction, on a daily and gross basis.

# AvivaSA Emeklilik ve Hayat A.Ş.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED JUNE 30, 2016

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated.)

### 2. Accounting policies (continued)

#### 2.2 Summary of significant accounting policies (continued)

##### s) Provision for outstanding claims / IBNR

Outstanding claims reserve represents the estimate of the total reported costs of notified claims on an individual case basis at the reporting date as well as the corresponding handling costs. A provision for claims incurred but not reported (“IBNR”) is also established as described below.

Estimates have to be made both for the expected ultimate cost of claims reported at the reporting date and for the expected ultimate cost of IBNR claims at the reporting date. It can take a significant period of time before the ultimate claims cost can be established with certainty. The primary technique adopted by management in estimating the cost of IBNR claims, is that of using past claim settlement trends to predict future claims settlement trends. At each reporting date, prior year claims estimates are reassessed for adequacy and changes are made to the provision. In addition to that, the Company also reassesses its notified claims provision at each reporting date on each claim file basis.

##### t) Mathematical reserves

Insurance companies operating in life branch allocate mathematical reserves, adequately according to actuarial principles, for long-term life policies in order to meet its obligations to beneficiaries and policyholders.

Mathematical reserves consist of actuarial mathematical reserves and profit share reserves, share of policyholders, determined from the income generated from mathematical reserves directed towards investment, that are calculated separately for each effective policy, in accordance with the technical principles in the tariffs.

Actuarial mathematical reserves are the difference between the premiums received for the risks assumed and cash value of liabilities to policyholders and beneficiaries. Actuarial mathematical reserves are provided for life insurance having more than one year of maturity, based on the formulas and elements of technical principles. Mathematical reserves are calculated on a prospective basis as the difference between the present value of liabilities and future premiums to be paid by the policyholders.

Profit share reserves consist of the income obtained from assets in relation to reserves provided for the obligations for the policyholders and beneficiaries in contracts for which the Company has committed to distribute profit shares; the guaranteed portion, not to exceed the technical interest income calculated based on the profit share distribution system prescribed in the approved technical principles of profit share and prior years’ accumulated profit share reserves.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED JUNE 30, 2016

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated.)

### 2. Accounting policies (continued)

#### 2.2 Summary of significant accounting policies (continued)

##### u) Reinsurance contracts held

Contracts entered into by the Company with reinsurers under which the Company is compensated for losses on one or more life insurance contracts issued by the Company, and that meet the classification requirements for insurance contracts are classified as reinsurance contracts held. Reinsurance liabilities are primarily reinsurance premiums payable to reinsurance contracts and are recognized as an expense when due.

Reinsurance cessions of the Company are made on risk premium basis with regard to death benefit and supplementary benefits. For group and individual life reinsurance surplus agreements, cessions are made to the treaty reinsurers according to shares of the surplus amounts in excess of the Company retention limits which are approved by the Turkish Treasury.

##### v) Pension business

The Company provides group and individual plans to customers.

The Company offers 23 pension investment funds (2015: 23). These pension funds are in different risk profiles according to the portfolio composition of the funds. The participants choose from among different pension funds within legal limitations and determine allocation rates for contributions and additional contributions according to the contract provisions. The participants gain right for retirement provided that they remain in the pension system for at least 10 years, pay contributions for at least 10-years and attain 56 years of age.

Pension business receivables consist of ‘receivable from pension investment funds for fund management fees’, ‘entry fee receivable from participants’ and ‘receivables from clearing house on behalf of the participants’. ‘Receivable from pension investment funds for fund management fees’ are the fees charged to the pension funds against for the administration of related pension funds which consist of fees which are not collected in the same day.

Pension business payables include participants’ temporary accounts, and payables to pension agencies. Pension business payables consist of payables to intermediaries in pension business, payables to custodians and payables to the Pension Monitoring Centre. The temporary accounts of participants consist of funds of participant which are yet not directed to investments and of payables due to sale of investments net of any entry fee payables by the participants and other deductions of participants who will either leave the pension business or who will transfer their funds to another insurance company. In case where collections from participants are performed or where cash is transferred to the Company subsequent to the sale of investments of the participants, the pension business payable account is credited. When the funds of participants are directed to investments or where the participants’ funds are transferred to another insurance company the account is debited.

#### *Income/Expense from/on Pension Operations*

Details of income and expenses from pension operations are explained in detail in “e) Income generated from pension business” and “i) Pension expenses including commission above”.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED JUNE 30, 2016

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated.)

### 2. Accounting policies (continued)

#### 2.2 Summary of significant accounting policies (continued)

##### w) Employee benefits

##### *Provision for Termination Benefit Obligations*

Provision for Termination Benefit Obligations represents the present value of the estimated future probable obligation of the Company arising from the retirement of the employees and calculated in accordance with the Turkish Labour Law. It is computed and reflected in the financial statements on an accrual basis as it is earned by serving employees. The computation of the liabilities is based upon the retirement pay ceiling announced by the Government. The maximum amount of TL 4,093 effective as of June 30, 2016 (December 31, 2015: TL 3,828) has been taken into consideration during calculation of provision from employment termination benefits.

IAS 19 – *Employee benefits* requires actuarial valuation methods to be developed to estimate the Company’s obligation for termination benefits. The principal statistical assumptions used in the calculation of the total liability in the accompanying financial statements at June 30, 2016 and December 31, 2015 is as follows:

	June 30, 2016	December 31, 2015
	%	%
Expected rate of salary/limit increase	5.00	5.00
Discount rate	10.10	10.10

##### *Other benefits to employees*

The Company has provided for undiscounted short-term employee benefits earned during the period as per services rendered in compliance with *IAS 19* in the accompanying financial statements.

##### x) Provisions

A provision is recognized when, and only when, the Company has a present obligation (legal or constructive) as a result of a past event and it is probable (i.e. more likely than not) that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate.

Where the effect of the time value of money is material, the amount of a provision is the present value of the expenditures expected to be required to settle the obligation.

# AvivaSA Emeklilik ve Hayat A.Ş.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED JUNE 30, 2016

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated.)

### 2. Accounting policies (continued)

#### 2.2 Summary of significant accounting policies (continued)

##### y) Taxes on income

The tax expense represents the sum of the tax currently payable and deferred tax.

##### *Current tax*

The tax currently payable is based on taxable profit for the year. Taxable profit differs from net profit as reported in the statement of profit or loss because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Company’s liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the balance sheet date.

##### *Deferred tax*

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit, and is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognised for taxable temporary differences arising on investments in subsidiaries and associates, and interests in joint ventures, except where the Company is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised based on tax laws and rates that have been enacted or substantively enacted at the balance sheet date. Deferred tax is charged or credited in the income statement, except when it relates to items charged or credited in other comprehensive income, in which case the deferred tax is also dealt with in other comprehensive income.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

# AvivaSA Emeklilik ve Hayat A.Ş.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED JUNE 30, 2016

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

### 2. Accounting policies (continued)

#### 2.2 Summary of significant accounting policies (continued)

##### z) Related parties

Parties are considered related to the Company if;

- (a) A person or a close member of that person's family is related to a reporting entity if that person:
  - (i) has control or joint control over the reporting entity;
  - (ii) has significant influence over the reporting entity; or
  - (iii) is a member of the key management personnel of the reporting entity or of a parent of the reporting entity.
- (b) An entity is related to a reporting entity if any of the following conditions applies:
  - (i) The entity and the reporting entity are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others).
  - (ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member).
  - (iii) Both entities are joint ventures of the same third party.
  - (iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity.
  - (v) The entity is a post-employment benefit plan for the benefit of employees of either the reporting entity or an entity related to the reporting entity. If the reporting entity is itself such a plan, the sponsoring employers are also related to the reporting entity.
  - (vi) The entity is controlled or jointly controlled by a person identified in (a).
  - (vii) A person identified in (a) (i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).

A related party transaction is a transfer of resources, services or obligations between related parties, regardless of whether a price is charged.

The Company management, groups associated to Sabancı Holding and Aviva are defined as related parties.

##### aa) Foreign currency transactions

Transactions are recorded in TL, which represents the Company's functional currency. Transactions denominated in foreign currencies are recorded at the exchange rates ruling at the dates of the transactions. Foreign currency denominated monetary assets and liabilities are converted into TL at the exchange rates ruling at the reporting date with the resulting exchange differences recognized in profit or loss as foreign exchange gains or losses.

Foreign currency assets and liabilities are converted by using period end exchange rates of Central Bank of the Republic of Turkey's bid rates.

The Central Bank of the Republic of Turkey exchange rates used in the conversion is as follows:

	June 30, 2016		December 31, 2015	
	US Dollar / TL	Euro / TL	US Dollar / TL	Euro / TL
Bid Rates	2.8936	3.2044	2.9076	3.1776
Ask Rates	2.9031	3.2150	2.9172	3.1881

### 2. Accounting policies (continued)

#### 2.2 Summary of significant accounting policies (continued)

##### bb) Segment reporting

Reporting segments are determined to conform to the reporting made to the Company’s chief operating decision maker. The chief operating decision maker is responsible for making decisions about resources to be allocated to the segment and assess its performance. Details related to the segment reporting are disclosed in the Note 3.

#### 2.3 Changes in accounting policy and disclosures

Financial statements of the Company have been prepared comparatively with the prior period in order to give information about financial position and performance. If the presentation or classification of the financial statements is changed, financial statements of the prior periods are also reclassified in order to maintain consistency with the current year’s presentation in line with the related changes.

##### a) Amendments to IFRSs affecting amounts reported and/or disclosures in the financial statements

None.

##### b) New and revised IFRSs applied with no material effect on the financial statements

IFRS 14	<i>Regulatory Deferral Accounts</i> <sup>1</sup>
Amendments to IFRS 11	<i>Accounting for Acquisition of Interests in Joint Operations</i> <sup>1</sup>
Amendments to IAS 16 and IAS 38	<i>Clarification of Acceptable Methods of Depreciation and Amortisation</i> <sup>1</sup>
Amendments to IAS 16 and IAS 41	<i>Agriculture: Bearer Plants</i> <sup>1</sup>
Amendments to IAS 27	<i>Equity Method in Separate Financial Statements</i> <sup>1</sup>
Annual Improvements to 2012-2014 Cycle	<i>IFRS 5, IFRS 7, IAS 19, IAS 34</i> <sup>1</sup>
Amendments to IAS 1	<i>Disclosure Initiative</i> <sup>1</sup>
Amendments to IFRS 10, IFRS 12 and IAS 28	<i>Investment Entities: Applying the Consolidation Exception</i> <sup>1</sup>

<sup>1</sup> Effective for annual periods beginning on or after 1 January 2016.

#### **IFRS 14 Regulatory Deferral Accounts**

IFRS 14 *Regulatory Deferral Accounts* permits an entity which is a first-time adopter of International Financial Reporting Standards to continue to account, with some limited changes, for ‘regulatory deferral account balances’ in accordance with its previous GAAP, both on initial adoption of IFRS and in subsequent financial statements.

IFRS 14 was issued by the IASB on 30 January 2014 and is applied to an entity's first annual IFRS financial statements for a period beginning on or after 1 January 2016.

# AvivaSA Emeklilik ve Hayat A.Ş.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED JUNE 30, 2016

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated.)

### 2. Accounting policies (continued)

#### 2.3 Changes in accounting policy and disclosures (continued)

b) New and revised IFRSs applied with no material effect on the financial statements (continued)

##### **Amendments to IFRS 11 *Accounting for Acquisition of Interests in Joint Operations***

This amendment requires an acquirer of an interest in a joint operation in which the activity constitutes a business to:

- apply all of the business combinations accounting principles in IFRS 3 and other IFRSs, except for those principles that conflict with the guidance in IFRS 11,
- disclose the information required by IFRS 3 and other IFRSs for business combinations.

##### **Amendments to IAS 16 and IAS 38 *Clarification of Acceptable Methods of Depreciation and Amortisation***

This amendment clarifies that a depreciation method that is based on revenue that is generated by an activity that includes the use of an asset is not appropriate for property, plant and equipment, and introduces a rebuttable presumption that an amortisation method that is based on the revenue generated by an activity that includes the use of an intangible asset is inappropriate, which can only be overcome in limited circumstances where the intangible asset is expressed as a measure of revenue, or when it can be demonstrated that revenue and the consumption of the economic benefits of the intangible asset are highly correlated. The amendment also adds guidance that expected future reductions in the selling price of an item that was produced using an asset could indicate the expectation of technological or commercial obsolescence of the asset, which, in turn, might reflect a reduction of the future economic benefits embodied in the asset.

##### **Amendments to IAS 16 and IAS 41 *Agriculture: Bearer Plants***

This amendment include ‘bearer plants’ within the scope of IAS 16 rather than IAS 41, allowing such assets to be accounted for a property, plant and equipment and measured after initial recognition on a cost or revaluation basis in accordance with IAS 16. The amendment also introduces a definition of ‘bearer plants’ as a living plant that is used in the production or supply of agricultural produce, is expected to bear produce for more than one period and has a remote likelihood of being sold as agricultural produce, except for incidental scrap sales, and clarifies that produce growing on bearer plants remains within the scope of IAS 41.

##### **Amendments to IAS 27 *Equity Method in Separate Financial Statements***

This amendment permits investments in subsidiaries, joint ventures and associates to be optionally accounted for using the equity method in separate financial statements.

##### **Annual Improvements 2012-2014 Cycle**

**IFRS 5:** Adds specific guidance in IFRS 5 for cases in which an entity reclassifies an asset from held for sale to held for distribution or vice versa and cases in which held-for-distribution accounting is discontinued.

**IFRS 7:** Additional guidance to clarify whether a servicing contract is continuing involvement in a transferred asset, and clarification on offsetting disclosures in condensed interim financial statements.

**IAS 19:** Clarify that the high quality corporate bonds used in estimating the discount rate for post-employment benefits should be denominated in the same currency as the benefits to be paid.

**IAS 34:** Clarify the meaning of ‘elsewhere in the interim report’ and require a cross-reference.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED JUNE 30, 2016

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated.)

### 2. Accounting policies (continued)

#### 2.3 Changes in accounting policy and disclosures (continued)

b) New and revised IFRSs applied with no material effect on the financial statements (continued)

##### **Amendments to IAS 1 *Disclosure Initiative***

This amendment addresses perceived impediments to preparers exercising their judgment in presenting their financial reports.

##### **Amendments to IFRS 10, IFRS 12 and IAS 28 *Investment Entities: Applying the Consolidation Exception***

This amendment addresses issues that have arisen in the context of applying the consolidation exception for investment entities by clarifying the following points:

- The exemption from preparing consolidated financial statements for an intermediate parent entity is available to a parent entity that is a subsidiary of an investment entity, even if the investment entity measures all of its subsidiaries at fair value.
- A subsidiary that provides services related to the parent’s investment activities should not be consolidated if the subsidiary itself is an investment entity.
- When applying the equity method to an associate or a joint venture, a non-investment entity investor in an investment entity may retain the fair value measurement applied by the associate or joint venture to its interests in subsidiaries.
- An investment entity measuring all of its subsidiaries at fair value provides the disclosures relating to investment entities required by IFRS 12.

#### c) New and revised IFRSs in issue but not yet effective

The Company has not applied the following new and revised IFRSs that have been issued but are not yet effective:

Amendments to IFRS 10 and IAS 28	<i>Sale or Contribution of Assets between an Investor and its Associate or Joint Venture</i>
Amendments to IAS 12	<i>Recognition of Deferred Tax Assets for Unrealized Losses</i> <sup>1</sup>
Amendments to IAS 7	<i>Disclosure Initiative</i> <sup>1</sup>
IFRS 9	<i>Financial Instruments</i> <sup>2</sup>
IFRS 15	<i>Revenue from Contracts with Customers</i> <sup>2</sup>
Amendments to IFRS 15	<i>Revenue from Contracts with Customers</i> <sup>2</sup>
Amendments to IFRS 2	<i>Classification and Measurement of Share-Based Payment Transactions</i> <sup>2</sup>
IFRS 16	<i>Leases</i> <sup>3</sup>

<sup>1</sup> Effective for annual periods beginning on or after 1 January 2017.

<sup>2</sup> Effective for annual periods beginning on or after 1 January 2018.

<sup>3</sup> Effective for annual periods beginning on or after 1 January 2019.

##### **Amendments to IFRS 10 and IAS 28 *Sale or Contribution of Assets between an Investor and its Associate or Joint Venture***

This amendment clarifies the treatment of the sale or contribution of assets from an investor to its associate or joint venture.

# AvivaSA Emeklilik ve Hayat A.Ş.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED JUNE 30, 2016

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated.)

### 2. Accounting policies (continued)

#### 2.3 Changes in accounting policy and disclosures (continued)

##### c) New and revised IFRSs in issue but not yet effective (continued)

#### **Amendments to IAS 12 *Recognition of Deferred Tax Assets for Unrealized Losses***

This amendment clarifies the following aspects:

- Unrealized losses on debt instruments measured at fair value and measured at cost for tax purposes give rise to a deductible temporary difference regardless of whether the debt instrument’s holder expects to recover the carrying amount of the debt instrument by sale or by use.
- The carrying amount of an asset does not limit the estimation of probable future taxable profits.
- Estimates for future taxable profits exclude tax deductions resulting from the reversal of deductible temporary differences.
- An entity assesses a deferred tax asset in combination with other deferred tax assets. Where tax law restricts the utilization of tax losses, an entity would assess a deferred tax asset in combination with other deferred tax assets of the same type.

#### **Amendments to IAS 7 *Disclosure Initiative***

This amendment clarifies that entities shall provide disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities.

#### **IFRS 9 *Financial Instruments***

IFRS 9, issued in November 2009, introduces new requirements for the classification and measurement of financial assets. IFRS 9 was amended in October 2010 to include requirements for the classification and measurement of financial liabilities and for derecognition, and in November 2013 to include the new requirements for general hedge accounting. Another revised version of IFRS 9 was issued in July 2014 mainly to include a) impairment requirements for financial assets and b) limited amendments to the classification and measurement requirements by introducing a “fair value through other comprehensive income (“FVTOCI”) measurement category for certain simple debt instruments.

#### **IFRS 15 *Revenue from Contracts with Customers***

IFRS 15 provides a single, principles based five-step model to be applied to all contracts with customers.

The five steps in the model are as follows:

- Identify the contract with the customer,
- Identify the performance obligations in the contract,
- Determine the transaction price,
- Allocate the transaction price to the performance obligations in the contracts,
- Recognise revenue when the entity satisfies a performance obligation.

# AvivaSA Emeklilik ve Hayat A.Ş.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED JUNE 30, 2016

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated.)

### 2. Accounting policies (continued)

#### 2.3 Changes in accounting policy and disclosures (continued)

##### c) New and revised IFRSs in issue but not yet effective (continued)

##### **Amendments to IFRS 15 *Revenue from Contracts with Customers***

clarify three aspects of the standard (identifying performance obligations, principal versus agent considerations, and licensing) and to provide some transition relief for modified contracts and completed contracts.

This amendment clarifies three aspects of the standard (identifying performance obligations, principal versus agent considerations, and licensing) and provides some transition relief for modified contracts and completed contracts.

##### **Amendments to IFRS 2 *Classification and Measurement of Share-Based Payment Transactions***

This amendment clarifies the standard in relation to the accounting for cash-settled share-based payment transactions that include a performance condition, the classification of share-based payment transactions with net settlement features, and the accounting for modifications of share-based payment transactions from cash-settled to equity settled.

##### **IFRS 16 *Leases***

This new standard brings most leases on-balance sheet for lessees under a single model, eliminating the distinction between operating and finance leases. Lessor accounting however remains largely unchanged and the distinction between operating and finance leases is retained. IFRS 16 supersedes IAS 17 “Leases” and related interpretations and is effective for periods beginning on or after 1 January 2019, with earlier adoption permitted if IFRS 15 'Revenue from Contracts with Customers' has also been applied.

The Company evaluates the effects of these standards, amendments and improvements on the financial statements.

#### 2.4 Critical accounting estimates and judgments in applying accounting policies

The preparation of financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

##### ***Deferred acquisition costs (DAC)***

Those direct and indirect costs incurred during the financial period arising from the writing or renewing of insurance contracts, are deferred to the extent that these costs are recoverable out of future premiums. All other acquisition costs are recognised as an expense when incurred.

Deferral periods can be the average life-time of the contracts (which are longer than the lapse assumptions). The Company management has determined the period as nine years and amount of DAC is subject to Liability Adequacy Test each year. The Company has applied straight line method for the amortisation of DAC which is nine years.

# AvivaSA Emeklilik ve Hayat A.Ş.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED JUNE 30, 2016

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

### 2. Accounting policies (continued)

#### 2.4 Critical accounting estimates and judgments in applying accounting policies (continued)

##### Ultimate liability arising from claims made under insurance contracts

The estimation of the ultimate liability arising from claims made under insurance contracts is executed depending on different assumptions. Mortality tables (CSO 1953-58, CSO 80 (Male-Female) approved by the Turkish Treasury are used to estimate the ultimate liability arising from life insurance policies. For estimating the risk of critical illness, the Critical Illness Rating Tables which are recommended by leader treaty reinsurer are used.

##### *Estimate of future benefit payments and premiums arising from long-term insurance contracts*

For estimation of future benefit and premium payments, four parameters have significant impacts:

- i) The lapse and surrender rates: These estimated rates are derived from past experience. In its estimation, the Company also takes into consideration the economic crisis or positive economic developments that will affect the rates either in a positive or a negative way.
- ii) Number of deaths: While estimating number of deaths in a year, the historical mortality experiences are used.
- iii) Future investment income: This estimate is based on current market returns as well as expectations about future economic and financial developments.
- iv) Average premium per insured: The assumption is based on historical trends in average premium amounts per insured and economical expectations that may affect the average premium amount.

##### *Employee termination benefits*

In accordance with existing social legislation in Turkey, the Company is required to make lump-sum termination indemnities to each employee who has completed over one year of service with the Company and whose employment is terminated due to retirement or for reasons other than resignation or misconduct. In calculating the related liability to be recorded in the financial statements for these termination benefits, the Company makes assumptions and estimations relating to the discount rate to be used, turnover of employees, future change in salaries/limits, etc. These estimations which are disclosed in Note 2.2 and Note 18 are reviewed regularly.

##### *Doubtful receivables provisions*

Doubtful receivables provisions are related to the total amount of receivables assessed by the Company's management, to cover the future potential losses arising from the non-collectability of the receivables as of the balance sheet date, upon the current state of the economy. The total amount of the provision is determined according to the valuation results, performances, market credibility, collection performances following balance sheet date, and the restructuring on the receivables. The doubtful receivables provision as of the balance sheet date is disclosed in Note 8.

##### *Deferred taxes*

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which the deductible temporary differences can be utilised. It is necessary to evaluate and make predictions regarding taxable profits which may occur in future while determining the amount of deferred tax assets to be recorded (Note 17).

##### *Provision for litigations*

In determining the provision for litigations, the Management considers the probability of legal cases to be brought against the Company and in case it is brought against the Company considers its consequences based on the assessments of legal advisor. The Company management makes its best estimates using the available data provided (Note 16).

# AvivaSA Emeklilik ve Hayat A.Ş.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED JUNE 30, 2016

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated.)

### 2. Accounting policies (continued)

#### 2.5 Changes in Accounting Estimates and Errors

If any change in an accounting estimate affects only one period, the effects of the change shall be recognized in the period of the change; if the change affects future periods, the effects of the change shall be recognized in the period of the change and in the future periods prospectively. There are no significant changes in the accounting estimates of the Company in the current period.

Significant accounting errors are corrected retrospectively and prior period financial statements are restated. As disclosed below, an error in accounting for premium income has been identified and relevant financial statements have been restated.

The entity has recognised premiums of the Return of Premium life insurance policies on a yearly basis and recognised the actuarial mathematical reserves on a monthly basis. This cut-off error corrects itself within 12 months for each individual policy. In order to correct this error and make the financial statements comparable, the entity changed its premium accounting method; due to this change the entity’s prior year financial statements are restated retrospectively.

### 3. Segment information

Information related to the operational reporting made by the Company to the chief operating decision-maker in accordance with the “IFRS 8 - Operating Segments” is disclosed in this note. The Company manages its business through the following business segments:

#### *Life Protection*

The Company’s life insurance business is principally related to life protection insurance, including credit-linked life and non-credit-linked life policies, such as term life, return of premium, critical illness and unemployment.

- Credit-linked life insurance policies represent the largest group of products historically offered by the Company, both in terms of the number of valid insurance policies and by share of the gross written premiums in the total gross written premiums earned by the Company. The Company offers both long-term and short-term credit-linked life insurance. Long-term credit-linked life insurance includes insurance policies relating to mortgages or consumer loans for terms greater than one year. Short-term credit-linked life insurance includes yearly renewable insurance policies relating to consumer loans with accidental disability and optional unemployment covers check credit life and SME credit life.
- Non-credit-linked (term) life insurance policies provide life protection insurance for a certain period of time. The insurance covers the insuree’s life. In the event of death, the beneficiary receives the amount insured. Individual protection insurance may be entered into only with regular premium installments in amounts pre-determined for the entire contract period. The Company offers customizable life insurance riders including involuntary unemployment, critical illness, accidental death, and disability due to accident or sickness in its non-credit-linked product portfolio.

# AvivaSA Emeklilik ve Hayat A.Ş.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED JUNE 30, 2016

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated.)

### 3. Segment information (continued)

#### *Life Savings*

Live savings products are generally written for a contract period, during which the insured makes regular premium payments into a unit, in return for a unit-price guaranteed.

#### *Personal Accident*

Personal accident policies provide coverage against disability, death and medical expenses due to accident. The insurance covers the insuree’s life. In the event of a defined accident, the beneficiary receives the amount insured. Individual protection insurance may be entered into with a single premium or with regular premium installments in amounts pre-determined for the entire contract period.

#### *Pension*

The Company offers a number of individual and corporate pension plans within the framework of the private pension system in Turkey.

The segment information below is presented on the basis used by the chief operating decision-maker to evaluate performance. Premium production and technical profit are considered while determining operating segments. Technical profit is the profit that the Company derives from providing insurance coverage, exclusive of the income it derives from investments. The chief operating decision-maker reviews discrete financial information for each of its segments, including measures of operating results. The segments are managed primarily on the basis of their results, which are measured on a basis which is broadly consistent with the Summary of Significant Accounting Policies described in Note 2, with the exception of certain adjustments. Management considers that this information provides the most appropriate way of reviewing the performance of the business.

Since the Company operates principally in Turkey, geographic segment information is not presented.

**Commission expenses:** Represents commission expenses included in general and administrative expenses in the statement of profit or loss under IFRS which are attributable to life protection, life savings, pension and personal accident segments.

**Net change in mathematical reserves:** Net change in mathematical reserves are a component of net premiums earned as per the Company’s segment reporting; whereas this is presented as part of total income after net premiums earned in the statement of profit or loss under IFRS.

**Other:** Adjustments included in other represent individually insignificant reclassifications.

Transactions between the business segments are on normal commercial terms and conditions.

Below are the reconciliations of the statement of profit or loss:

# AvivaSA Emeklilik ve Hayat A.Ş.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED JUNE 30, 2016

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated.)

### 4. Insurance and financial risk management

The Company has developed and implemented a risk management structure to protect it against events that undermine sustainable performance, solvency or the achievement of strategic objectives. The risk management system is a fundamental part of the daily operations and ongoing performance of the Company. By identifying, analyzing, measuring, controlling, managing, reporting and mitigating risks that may arise in the course of its operations in a timely manner, the Company intends to, among other things, comply with applicable legislative and regulatory requirements, meet its obligations towards its customers and counterparties and maintain capital adequacy.

The Company’s approach to risk management is based on the following elements:

- Ensuring compliance with legal obligations and the Company’s risk management policies;
- Identifying all structural risks the Company is exposed to and defining risk acceptance criteria; and;
- Designing and applying internal control mechanisms and actions to seek to address these risks, and assuring the Board of Directors about the transparent reporting of such risks.

The Board of Directors has overall responsibility for the risk and control environment, including setting the Company’s risk appetite, risk strategy and target operating model, and risk management and internal control systems.

#### Early Risk Detection Committee

Pursuant to the Regulation on Internal Systems and a resolution of AvivaSA’s Board of Directors dated July 15, 2011 and numbered 2011/29, AvivaSA established a risk committee. Subsequently, pursuant to a resolution of AvivaSA’s Board of Directors dated October 17, 2014 and numbered 2014/62, the risk committee was restructured to replace the former risk committee in compliance with the Corporate Governance Principles (the Early Risk Detection Committee). Pursuant to the Corporate Governance Communiqué, an early risk detection committee is to be responsible for the preliminary detection of risks that may endanger the existence, development and continuity of a public company. Such committee is also responsible for supervising the implementation of appropriate remedial measures and the performance of risk management activities, during the course of which it must monitor, at least once a year, the risk management systems of the Company.

### 4. Insurance and financial risk management (continued)

#### Risk Management Framework

The Company aims to maximize Market Consistent Embedded Value (MCEV) and Shareholders’ expectations within the risk appetite framework. It is provided by consistent and strong risk management process are applied companywide.

AvivaSA Emeklilik ve Hayat A.Ş.’s risk management framework “(RMF)” forms an integral part of the management and Board processes and decision making framework. The key elements of our risk management framework comprise risk appetite, risk governance including risk policies and business standards, risk oversight committees and roles and responsibilities and the processes we use to identify, measure, manage, monitor and report “(IMMMR)” risks.

Roles and responsibilities for risk management are based around the “three lines of defence model” where ownership for risk is taken at all levels in the Company.

- *First line of defence (Management):* Primary responsibility for risk identification, measurement, management, monitoring and reporting lies with management. The first-line management is responsible for the implementation and practice of risk management, as well as establishing internal control systems.
- *Second line of defence (Risk and Internal Control Function):* Risk and Internal Control function is accountable for oversight and challenge of the IMMMR process and for developing the risk management framework.
- *Third line of defence (Internal audit function):* Internal Audit function provides an independent assessment of the risk framework and internal control processes.

The Company’s risk management model identifies risk classes, which are then further highlighted under risk management policies and standards. These risk management policies and standards act as practical guides explaining how the Company can manage any financial, operational and nominal losses in the most appropriate way, by identifying the risks inherent in the life insurance and private pension industry, analyzing measurable data concerning these risks and establishing limits for such risks for the Company and its management.

The following diagram sets out the Company’s risk policy framework:

# AvivaSA Emeklilik ve Hayat A.Ş.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED JUNE 30, 2016

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated.)

### 4. Insurance and financial risk management (continued)

#### Risk Management Framework (continued)

The Company also adheres to the following business policies and standards as regards risk management:

##### *Risk policies*

The risk management policies set the basic principles and standards for the risk management system and processes. The policies are approved by the Board of Directors and the amendments require the Board of Directors approval. The tools required to determine, measure, manage, monitor and report the risk vary by the risk type. Therefore, the risk policy framework includes six risk policies, including the Risk Management Framework Policy, special to each risk type to which the company is exposed: life insurance and private pension, credit, market, liquidity and operational risk.

##### *Business standards*

The Company recognizes the importance of consistent and controlled business processes as a form of risk management. Each risk policy is therefore supported by a number of associated business standards which sets out the requirements for operating consistent processes across its most important business activities.

Primary risks facing the Company are Insurance Risk and Financial Risk (comprising mainly Market Risk and Credit Risk).

#### **Insurance Risk**

This is the risk that the insurance premiums allocated by the Company may not meet the claim liabilities and profit share payments and any payment in relation to claims and damages may exceed its expectations. Life insurance risk includes, death, disability, additional collateral due to accidents and dangerous diseases etc.

##### *a) Life insurance*

Life insurances are offered as individual and group contracts in short and long term periods.

Mortality risk (the risk that more than expected insured parties die), disability, critical illness and additional collateral play an important role in the life insurance businesses of the Company. The all risk associated with the Company’s life insurance mentioned above and related rider businesses have been partly reinsured. The most important contracts are signed with Swiss Re, Scor Global Life, Cardiff Hayat ve Emeklilik, Munich Re and Gen Re. The company has signed reinsurance agreements with Scor Global Life ve RGA against catastrophic loss risks.

# AvivaSA Emeklilik ve Hayat A.Ş.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED JUNE 30, 2016

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated.)

### 4. Insurance and financial risk management (continued)

#### Insurance Risk (continued)

##### *a) Life insurance (continued)*

The life insurance businesses are also exposed to lapse risk and persistency risk. Lapse risk is the risk that policies exit prior the maturity. Persistency risk is defined as the risk of a sustained increase in lapse rates, unexpected volatility in lapse rates and mass lapses. Whether policyholders terminate or renew (explicitly or through automatic renewal) their insurance policies depends on consumer expectations and developments in the financial markets. Managing the attractiveness of life insurance products for customers and intermediaries as well as close monitoring of developments in the portfolio are key to mitigating this risk.

In case of technical interest rates remain below the guaranteed return on investment returns on life insurance will taken of the cumulative premium investment risk is the risk of the insurance company is concerned.

##### *b) Personal Accident (Non-Life)*

Personal Accident insurances are offered as individual or group contracts.

Personal accident insurance contains the risk like accidental death and accidental disability. Disposals and customer retention risks are also among the risk of personal accident insurance

The personal accident insurance as well as life insurance should be given as additional collateral to guarantee unemployment insurance, reinsurance collateral is transferred to all

##### *c) Pensions*

The pensions business is also exposed to lapse risk, which is the risk of cancelling contracts, transfers out to competitors and termination of pension policies at maturity (*i.e.*, retirement).The investment risk under pension contracts is borne by the customer. The customer evaluates its pension fund investments according to its own preferences.

#### *Assessment and claims settlement*

In order to assess insurance risk, and accordingly manage the claim and premium balance, determine liabilities accurately and ensure sufficient provisioning to meet liabilities, the Company performs the following analyses:

- experience investigations on claims;
- persistency reports on lapses and transfer outs; and
- Market-Consistent Embedded Value (“MCEV”)

Claims handling is organized in a specialized department within the operations division of the Company, handling both individual and corporate policies, and the assessment and settlement of incurred claims takes place on a monthly basis. Further, the Company has underwriting at the claim stage specifically for critical illness claims.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED JUNE 30, 2016

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

### 4. Insurance and financial risk management (continued)

#### Insurance Risk Management

The purpose in managing risks arising from insurance contracts and policies designed to reduce such risks:

The insurance risk is a risk transferred by insured to insurer, apart from financial risk. Transferred risk is about an uncertain future incident. Uncertainty arises from lack of information about whether the incident is going to happen or not or about its size or timing.

The ratio of premiums collected by insurer to claim paid to insured denotes a Company's capacity to meet insurance risk.

As at June 30, 2016 and December 31, 2015, Company's claim/premium ratio related branches are given below. It is observed that premiums collected provide a capacity to meet any incurred claims:

Net claims ratio	June 30, 2016	December 31, 2015
Life	18%	19%
Personal Accident (Casualty)	8%	5%

As at June 30, 2016 and December 31, 2015 that part of total risk which is ceded to reinsurers is given below on a risk coverage basis.

June 30, 2016						
Life						
Natural Death	Accidental death	Accidental disability	Sickness disability	Dangerous sickness	Public Transport	Unemployment
5.99%	18.30%	7.71%	7.68%	50.67%	17.61%	100.00%

### 4. Insurance and financial risk management (continued)

#### Sensitivity to Insurance Risk

The Company's policy production strategy is based on optimal distribution of risk to reinsurance companies according to policy type, as well as to kind and size of risk taken. At 30 June 2016 and 31 December 2015 the Company has both proportional and non-proportional reinsurance treaties.

Outstanding claims are reviewed and updated periodically by claims department.

The Company executes insurance contracts in life insurance and personal accident branches. Accordingly, in such insurance contracts, insurance risk concentration according to nature of the subject-matter of insurance are summarized below in gross and net figures (net of reinsurance)

<b>June 30, 2016</b>	<b>Total gross risk liability</b>	<b>Share of reinsurer in total risk liability</b>	<b>Net risk liability</b>
Life	33,282,592,556	1,993,292,457	31,289,300,099
Personal Accident	36,132,415,793	505,273,693	35,627,142,100
<b>Total</b>	<b>69,415,008,349</b>	<b>2,498,566,150</b>	<b>66,916,442,199</b>

<b>December 31, 2015</b>	<b>Total gross risk liability</b>	<b>Share of reinsurer in total risk liability</b>	<b>Net risk liability</b>
Life	33,952,686,141	2,008,115,435	31,944,570,705
Personal Accident	32,506,272,378	334,229,847	32,172,042,531
<b>Total</b>	<b>66,458,958,519</b>	<b>2,342,345,282</b>	<b>64,116,613,236</b>

The Company's gross provision for outstanding claims at June 30, 2016 and December 31, 2015 are as follows:

<b>Outstanding Claims</b>	<b>June 30, 2016</b>	<b>December 31, 2015</b>
Life	46,003,310	47,164,173
Personal Accident	6,939,250	7,404,310

# AvivaSA Emeklilik ve Hayat A.Ş.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED JUNE 30, 2016

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

### 4. Insurance and financial risk management (continued)

#### Financial Risk

Financial risk arises from the financial instruments used by the Company, such as cash, time bank deposits, government bonds, treasury bills, private sector bonds and Eurobonds. The specific risks arising from such instruments and insurance contract liabilities are as follows:

#### a) Market Risk

Market risk refers to the risk of incurring financial losses as a result of fluctuations in the fair value of a financial instrument or expected future cash flows from a financial instrument and the risk that fair value of cash flows resulting from liabilities (including insurance liabilities) will change due to fluctuations in the level or the volatility of market variables. Market risk consists of equity risk, inflation risk, property risk, commodity risk and, more importantly for the Company, interest rate risk and foreign exchange risk.

#### i) Foreign Currency Risk

The Company is exposed to foreign exchange risk through the impact of rate changes at the translation of Turkish Lira pertaining to foreign currency denominated receivables and payables.

Foreign currency sensitivity analysis as of 30 June 2016 and 31 December 2015 are as follows:

At June 30, 2016, on condition that all variables remain constant, effect of a 10% appreciation/ devaluation of Eurobonds against TL on owners' equity is TL 294,208.

#### June 30, 2016:

Liabilities and assets in foreign currency Exchange rate variation (*)	Effect on income/expense		
	USD	EUR	GBP
10%	(225,897)	35,980	(147)
-10%	225,897	(35,980)	147

As at December 31, 2015, on condition that all variables remain constant, effect of a 10% appreciation/ devaluation of Eurobonds against TL on owners' equity is TL 21,506.

#### December 31, 2015:

Liabilities and assets in foreign currency Exchange rate variation (*)	Effect on income/expense		
	USD	EUR	GBP
10%	721,906	14,661	(11,091)
-10%	(721,906)	(14,661)	11,091

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated.)

### 4. Insurance and financial risk management (continued)

#### Financial Risk (continued)

##### a) Market Risk (continued)

##### ii) Interest Risk

The Company’s sensitivity to interest rate risk is related to the change in the fair values or expected cash inflows of the financial assets due to the fluctuations in the interest rates. The Company closely monitors interest rate risk by monitoring market conditions and appropriate valuation methods.

In the following table, on condition that all other variables remain constant, it is disclosed that the effect on the statement of profit or loss of a 5% increase/(decrease) in market interest rates for TL securities, as well as of a 0,5 % increase/(decrease) for USD and EURO securities. The underlying logic used in this projection is that a discount interest rate applicable for each year with effect of the stresses set in different rates by respective years is found using the upward-downward variation which might occur in average market interest rates and that market value of securities are then discounted at such rate in connection with their respective maturity period.

#### As at 30 June 2016:

## NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED JUNE 30, 2016

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated.)

### 4. Insurance and financial risk management (continued)

#### Financial Risk (continued)

##### b) Credit Risk

Credit risk is the failure of Company to third parties not to fulfill their obligations wholly or partially, financial loss related to changes in credit spreads and credit note.

Since, financial assets of the Company mainly consist of government bonds which are not considered as a high credit risk and bank deposits in the banks resident in Turkey, credit risk is lower than other risk categories.

#### Maximum exposure to credit risk

The table below shows the maximum exposure to credit risk for the components of the financial statements:

	June 30, 2016	December 31, 2015
Cash and cash equivalents	455,035,054	447,814,449
Financial assets	339,187,794	333,829,916
Premium and other insurance receivables	17,158,665	18,098,532
Reinsurance share of insurance liabilities	10,753,701	7,223,323
Other financial assets	838,932	838,932
Pension business receivables	16,439,910	8,069,213
<b>Total</b>	<b>839,414,056</b>	<b>815,874,365</b>

##### c) Liquidity Risk

The Company faces the risk that its short-term assets are insufficient to meet its short-term obligations (such as claims arising from insurance contracts) as they fall due. To mitigate this risk, it uses liquidity coverage ratio “(LCR)” to monitor its liquidity risk profile on a 12-month basis. The monthly LCR is defined as (i) the projected amount of cash available at the start of the month divided by (ii) the planned net cash outflows during the month plus an allowance for a 1 in 10 stress event.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED JUNE 30, 2016

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

### 4. Insurance and financial risk management (continued)

#### Financial Risk (continued)

##### c) Liquidity Risk (continued)

#### Fair value of the financial instruments

Fair value is the amount for which an asset could be exchanged or a liability settled between knowledgeable, willing parties in an arm's length transaction in accordance with market conditions.

The Company determines the estimated fair value of its financial instruments by using the current market information and appropriate valuation methods. Additionally, ability to estimate the market values through assessing the market information requires interpretation and judgment. As a result, the estimations presented herein cannot be an indicator of the amounts obtained by the Company in a current market transaction.

#### Fair value hierarchy

Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties, other than in a forced sale or liquidation, and is best evidenced by a quoted market price, if one exists. Fair value measurements are performed in accordance with the following fair value measurement hierarchy.

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).
- Level 3: Inputs for the asset or liability that is not based on observable market data (that is, unobservable inputs).

## NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED JUNE 30, 2016

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated.)

### 4. Insurance and financial risk management (continued)

#### Financial Risk (continued)

##### d) Operational Risk

Operational risks consist of all other risks that may cause financial loss or loss of reputation to the Company and may result from the potential failure of the people, processes and technology employed in taking and managing risks. Operational risks that Company faces include the following:

- Regulatory reporting defects regarding pension and life;
- Defects due to incapability of the IT infrastructure; and
- Deficiencies in internal control systems.

The Company regards tight control over its IT systems as a strategic necessity. The Company aims to strengthen its central IT organization and the strategic information management function to increase the effectiveness of the general IT controls and to reduce costs through, for example, the improvement of existing IT systems. The IT systems require many ongoing adjustments because of legislative changes and chain integration.

Operational risks are detailed in the Company’s risk tracking system, called OPERA, which is updated to reflect changes in the operating environment and its business processes.

#### Capital Management

The Company’s capital adequacy is calculated within the framework of “Regulation on Measurement and Evaluation of Capital Adequacy of Insurance, Reinsurance and Pension Companies” published in the Official Gazette dated January 19, 2008 and numbered 26761, in the semi-annual periods. The main purpose of the Company’s capital management is to maximize the contribution provided made to its shareholders in order to create and maintain a strong capital structure to continue the operations of the Company.

As of June 30, 2016 and December 31, 2015, the Company has a sufficient amount of equity for losses which may arise from current liabilities and potential risks of the Company. As of June 30, 2016 and December 31, 2015, the required capital reserves (calculated in accordance with the above-mentioned local regulation) and current capital adequacy analysis is as follows:

	June 30, 2016	December 31, 2015
Total owners’ equity (*)	176,231,222	166,361,681
Required minimum capital reserves	123,867,600	119,647,069
<b>Capital surplus</b>	<b>52,363,622</b>	<b>46,714,612</b>

\* It includes equalization reserve.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED JUNE 30, 2016

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

### 15. Due to insurance and reinsurance companies

As at June 30, 2016 and December 31, 2015; due to insurance and reinsurance companies are as follows:

	June 30, 2016	December 31, 2015
Due to the intermediaries	9,227,958	7,722,565
Due to the reinsurance companies	816,278	460,147
Due to the policyholders	65,225	87,569
<b>Total</b>	<b>10,109,461</b>	<b>8,270,281</b>

### 16. Other provisions

As at June 30, 2016 and December 31, 2015; provision for expenses and lawsuit provisions are as follows:

	June 30, 2016	December 31, 2015
Personnel bonus provision	12,107,580	15,155,173
Commission provision	2,097,000	3,461,745
Bonus provision for sales personnel	3,250,964	3,893,267
Provision for lawsuit against the Company (Note 34)	6,876,805	6,452,829
<b>Total</b>	<b>24,332,349</b>	<b>28,963,014</b>

### 17. Taxes

#### *Corporate taxes*

Statutory income is subject to corporate tax at 20% (2015: 20%). This rate is applied to accounting income modified for certain exemptions (like dividend income) and deductions (like investment incentives), and additions for certain non-tax deductible expenses and allowances for tax purposes. If there is no dividend distribution planned, no further tax charges are made.

Dividends paid to the resident institutions and the institutions working through local offices or representatives are not subject to withholding tax. Withholding tax rate on the dividend payments other than the ones paid to the non-resident institutions generating income in Turkey through their operations or permanent representatives and the resident institutions is 15%. In applying the withholding tax rates on dividend payments to the non-resident institutions and the individuals, the withholding tax rates covered in the related Double Tax Treaty Agreements are taken into account. Appropriation of the retained earnings to capital is not considered as profit distribution and therefore is not subject to withholding tax.

In Turkey, advance tax returns are filed on a quarterly basis. The prepaid taxes are calculated and paid at the rates valid for the earnings of the related years. Advance corporate income tax rate applied in 2016 is 20%. (2015: 20%). The payments can be deducted from the annual corporate tax calculated for the whole year earnings.

In accordance with the tax legislation, tax losses can be carried forward to offset against future taxable income for up to five years. Tax losses cannot be carried back to offset profits from previous years.

# AvivaSA Emeklilik ve Hayat A.Ş.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED JUNE 30, 2016

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated.)

### 17. Taxes (continued)

#### *Corporate taxes (continued)*

In Turkey, there is no procedure for a final and definite agreement on tax assessments. Companies file their tax returns with their tax offices by the end of the 25<sup>th</sup> day of the fourth month following the close of the accounting period to which they relate. Tax returns are open for five years from the beginning of the year that follows the date of filing during which time the tax authorities have the right to audit tax returns, and the related accounting records on which they are based, and may issue re-assessments based on their findings.

#### *Transfer pricing*

In Turkey, the transfer pricing provisions have been stated under the Article 13 of Corporate Tax Law with the heading of “disguised profit distribution via transfer pricing”. The General Communiqué on disguised profit distribution via Transfer Pricing, dated 18 November 2007 sets details about implementation.

If a taxpayer enters into transactions regarding sale or purchase of goods and services with related parties, where the prices are not set in accordance with arm’s length principle, then related profits are considered to be distributed in a disguised manner through transfer pricing. Such disguised profit distributions through transfer pricing are not accepted as tax deductible for corporate income tax purposes.

#### **Income tax**

As at June 30, 2016 and December 31, 2015; prepaid income taxes are netted off with the current income tax payable as stated below:

	<b>June 30, 2016</b>	<b>December 31, 2015</b>
Income taxes payable	6,223,866	18,320,833
Prepaid income taxes	(4,800,019)	(16,344,197)
<b>Current tax (assets) / liabilities</b>	<b>1,423,847</b>	<b>1,976,636</b>

#### **Deferred taxes**

The Company recognizes deferred tax assets and liabilities based upon temporary differences arising between its financial statements as reported for International Accounting Standards (IAS) purposes and its statutory tax financial statements. These differences usually result in the recognition of revenue and expenses in different reporting periods for IAS.

Tax rate is applied as 20% for the calculation of deferred tax asset and liabilities. The details of deferred taxes are presented in the following tables.

# AvivaSA Emeklilik ve Hayat A.Ş.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED JUNE 30, 2016

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated.)

### 17. Taxes (continued)

#### Deferred taxes (continued)

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred income tax assets and liabilities are determined using tax rates and tax legislation that has been enacted at the statement of financial position date and is expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

There are no unrecognised deferred tax assets in the periods presented.

Income tax expenses for the period ended June 30, 2016 and June 30, 2015; are as follows:

	January 1 – June 30, 2016	January 1 – June 30, 2015
Income tax expense recognized in profit or loss:		
- Current tax charge	(5,016,404)	(11,485,180)
- Deferred tax charge	(10,394,113)	(2,313,879)
Adjustments recognized in the period for current tax of prior periods	1,658,691	2,143,691
<b>Income tax expense</b>	<b>(13,751,826)</b>	<b>(11,655,368)</b>

The total provision for taxes on income is different than the amount computed by applying the Turkish statutory tax rate of 20% to income before provision for taxes as shown in the following reconciliation:

	January 1 – June 30, 2016	January 1 – June 30, 2015
Profit before taxes	67,796,077	57,591,998
Tax rate	20%	20%
Taxes on income per statutory tax rate	(13,559,215)	(11,518,401)
Revenue that is exempt from taxation	1,429,527	1,797,311
Non-deductible expenses	(1,622,138)	(1,934,280)
<b>Income tax expense</b>	<b>(13,751,826)</b>	<b>(11,655,368)</b>

### 18. Employment termination benefits

	June 30, 2016	December 31, 2015
Provision for employment termination benefits	7,607,952	7,685,572
<b>Total</b>	<b>7,607,952</b>	<b>7,685,572</b>

Under Turkish Labour Law, the Company is required to pay termination benefits to each employee who has completed one year of service and whose employment is terminated without due cause, is called up for military service, dies or who retires after completing 25 years of service and attains the retirement age.

# AvivaSA Emeklilik ve Hayat A.Ş.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED JUNE 30, 2016

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

### 18. Employment termination benefit (continued)

The amount payable consists of one month's salary limited to a maximum of TL 4,093 (December 31, 2015: TL 3,828) for each year of service as of June 30, 2016.

IAS 19 requires actuarial valuation methods to be developed to estimate the enterprise's obligation; the provision has been calculated by using projection method. The provision has been calculated by estimating the present value of the future probable obligation of the Company arising from the retirement of the employees. Accordingly, the following actuarial assumptions were used in the calculation of the total liability:

	June 30, 2016	December 31, 2015
Estimated salary increase rate	5.00%	5.00%
Discount rate	10.10%	10.10%

The movement in the provision for employment termination benefits in the current period is as follows:

	2016	2015
Opening balance, January 1	7,685,572	7,228,051
Paid during the period	(782,486)	(554,610)
Service cost	351,622	366,704
Interest cost	353,244	301,164
<b>Closing balance, June 30</b>	<b>7,607,952</b>	<b>7,341,309</b>

### 19. Deferred expenses

As at June 30, 2016 and June 30, 2015; movements of deferred expenses are as follows:

	January 1- June 30, 2016	January 1- June 30, 2015
Deferred acquisition costs, gross January 1	239,231,921	185,216,177
Acquisition costs deferred during the period	40,620,178	41,642,551
Amortization	(19,376,713)	(14,637,512)
<b>Deferred acquisition costs</b>	<b>260,475,386</b>	<b>212,221,216</b>
Deferred commission costs, gross January 1	21,758,274	19,734,435
Commission cost deferred during the period	2,609,363	919,113
<b>Deferred commission costs</b>	<b>24,367,637</b>	<b>20,653,548</b>
<b>Total deferred expenses</b>	<b>284,843,023</b>	<b>232,874,764</b>

## NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED JUNE 30, 2016

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

### 21. Insurance contract liabilities (continued)

#### Claims development tables

The claims provision is sensitive to some key assumptions. The sensitivity of certain assumptions like legislative change, uncertainty in the estimation process, etc., is not possible to quantify. Furthermore, because of delays that arise between occurrence of a claim and its subsequent notification and eventual settlement, the outstanding claim provisions are not known with certainty at the reporting date.

Consequently, the ultimate liabilities will vary as a result of subsequent developments. Differences resulting from reassessment of the ultimate liabilities are recognized in subsequent financial statements.

#### Claim development tables

As at June 30, 2016; claim development table of the Company is as follows:

Accident year	2009 and earlier	2010	2011	2012	2013	2014	2015	2016	Total

<b>Total share capital</b>	<b>100.00</b>	<b>118,000,000</b>	<b>100.00</b>	<b>118,000,000</b>

### Profit and other capital reserves:

Details of the profit and other capital reserves are explained below:

	June 30, 2016	December 31, 2015
Profit reserves	29,180,281	24,648,038
Other capital reserves	837,095	837,095
<b>Total</b>	<b>30,017,376</b>	<b>25,485,133</b>

Retained earnings as per the statutory financial statements, other than legal reserve requirements as referred below, are available for distribution. The legal reserves consist of first and second reserves, appropriated in accordance with the Turkish Commercial Code. The Turkish Commercial Code stipulates that the first legal reserve is appropriated out of statutory profits at the rate of 5% per annum, until the total reserve reaches 20% of the Company's paid-in share capital. The second legal reserve is appropriated at the rate of 10% per annum of all cash distributions in excess of 5% of the paid-in share capital. Under the Turkish Commercial Code, the legal reserves can only be used to offset losses unless they exceed 50% of paid-in share capital and are not available for any other usage.
