AGESA HAYAT VE EMEKLİLİK ANONİM ŞİRKETİ
(Formerly “AvivaSA Emeklilik ve Hayat Anonim Şirketi”)

NOTES TO CONSOLIDATED FINANCIAL INFORMATION
AS AT JUNE 30, 2021

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated.)

1. GENERAL INFORMATION

1.1 Corporate Information

AgeSA Hayat ve Emeklilik Anonim Şirketi (formerly “AvivaSA Emeklilik ve Hayat Anonim Şirketi”) (“the Company”) was established on October 31, 2007 by the merger of Ak Emeklilik Anonim Şirketi (“Ak Emeklilik”) with Aviva Hayat ve Emeklilik Anonim Şirketi (Aviva Emeklilik).

Aviva Europe SE and Hacı Ömer Sabancı Holding A.Ş.; each held 49.83% of the shares before offering 19.67% of the shares of the Company to public on November 13, 2014. As a result of the initial public offering, the shares of the Company have been listed on Borsa İstanbul A.Ş. (“BIST”) as of November 13, 2014. After the price stabilization activities, the Company’s main shareholders’ share in partnership were 41.28% each and the percentage of shares which are publicly traded were 17.28%.

Hacı Ömer Sabancı Holding A.Ş. sold its shares with the nominal value of TL 458,956 in BIST on August 5, 2015 and after this disposal, its share in AgeSA Hayat ve Emeklilik Anonim Şirketi (formerly “AvivaSA Emeklilik ve Hayat Anonim Şirketi”) decreased to 40%.

Aviva International Holdings Ltd. sold its share with the nominal value of TL 458,956 in BIST on August 5, 2015 and after this sale its share in AgeSA Hayat ve Emeklilik Anonim Şirketi (formerly “AvivaSA Emeklilik ve Hayat Anonim Şirketi”) decreased to 40%.

With the Board of Directors' decision dated October 26, 2018, it has been decided to get permission from the Prime Ministry Capital Markets Board, SEDDK and Ministry of Commerce to increase the paid-in capital of the Company by 52.54% and increase from TL 118,000,000 to TL 180,000,000 and to provide the entire increase of TL 62,000,000 from Extraordinary Reserves and to give 52.54% of the shares to each share held by the shareholders. As of June 30, 2021 19.91% of the Company’s share have been listed on the Borsa İstanbul (“BIST”).

The Company is engaged in pension business and life insurance. The Company also issues insurance policy for personal accident.

The Company’s management analysed their relationship with the pension investment funds under IFRS 10, 11 and 12 and concluded that the Company has no control over the pension investment funds.

The Share Purchase Agreement was signed between Ageas Group and Aviva Group on 23 February 2021. Accordingly, Ageas agreed to take over all of AvivaSA's shares with a nominal value of TL 72,000,006.72, representing 40% of the capital owned by Aviva. The closing conditions determined in the Share Purchase Agreement have been fulfilled, and all of Aviva's shares representing 40% of our Company's capital were taken over by Ageas as of 5 May 2021.

The company will continue to operate as a joint venture company with a 40-40% partnership between Sabancı Holding and Ageas.

AGESA HAYAT VE EMEKLİLİK ANONİM ŞİRKETİ
(Formerly “AvivaSA Emeklilik ve Hayat Anonim Şirketi”)

NOTES TO CONSOLIDATED FINANCIAL INFORMATION
AS AT JUNE 30, 2021

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated.)

1. GENERAL INFORMATION (Continued)

1.1 Corporate Information (Continued)

The validity of the Share Purchase Agreement signed between Ageas and Aviva depends on the fulfillment of the closing conditions specified in the relevant contracts, including obtaining the necessary permissions and approvals, and the entire process is expected to be completed in 2021.

The registered office of the Company is Saray Mahallesi Dr. Adnan Büyükdeniz Caddesi No: 12, 34768 Ümraniye, Istanbul - Turkey.

Other contact information of the company is as follows:

Phone : (216) 633 33 33
Fax : (216) 634 35 69
Web : www.agesahayatemeklilik.com.tr
E-mail address : avivasa@avivasa.hs03.kep.tr

The consolidated financial information of the Company as at and for the period ended June 30, 2021 comprises the Company and its subsidiary (together referred to as the “Group” and individually as “Group Entities”).

The subsidiary; AvivaSA Sigorta Aracılığı A.Ş. has been approved in AvivaSA Hayat ve Emeklilik A.Ş. board of directors meeting dated December 13, 2018 which has officially registered on December 20, 2018 to brokerage insurance and private pension with 2,000,000 TL paid-in capital and 100% subsidiary.

The Share Purchase Agreement was signed between Ageas Group and Aviva Group on 23 February 2021. Accordingly, Ageas agreed to take over all of AvivaSA's shares with a nominal value of TL 72,000,006.72, representing 40% of the capital owned by Aviva. The closing conditions determined in the Share Purchase Agreement have been fulfilled, and all of Aviva's shares representing 40% of our Company's capital were taken over by Ageas as of 5 May 2021.

In the new situation, the company will continue its activities as a company subject to joint management with the 40-40% partnership of Sabancı Holding and Ageas.

Enforcement of the Share Purchase Agreement signed between Ageas and Aviva depends on the fulfillment of the closing conditions specified in the relevant agreements, including the obtaining of necessary permits and approvals, and the entire process is expected to be completed in 2021.

The address of the registered office of the subsidiary is as follows;

Saray Mahallesi Dr. Adnan Büyükdeniz Caddesi No: 12, 34768 Ümraniye, Istanbul - Turkey.

AvivaSA Sigorta ve Aracılığı A.Ş. acts as an agent for non-life insurance policies including health and pension contracts. The Company also can deal with any other type of business on behalf of and in favour of the Group by the approval of General Assembly

The average personnel number of the Group is 1,445 employees for the period ended June 30, 2021 (1 January - December 31, 2020: 1,377).

The accompanying consolidated financial information of the Group for the period ended June 30, 2021 were authorized for issue in accordance with a resolution of the directors on August 9, 2021.

2. ACCOUNTING POLICIES

2.1 Basis of preparation

The consolidated financial information have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values. Historical cost is generally based on the fair value of the consideration given in exchange for assets.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

In addition, for financial reporting purposes, fair value measurements are categorized into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

2.2 Basis of consolidation

The accompanying consolidated financial information comprise of the consolidated financial information of the parent company “AgeSA Hayat ve Emeklilik Anonim Şirketi” (formerly “AvivaSA Emeklilik ve Hayat Anonim Şirketi”) and its subsidiary (“AvivaSA Sigorta Aracılığı A.Ş.”, wholly owned by the Company) prepared on the basis set out in sections below. The consolidated financial information of the entities included in the consolidation have been prepared as at the date of these consolidated financial information.

Subsidiary

Subsidiary is the entity controlled by the Group. The consolidated financial information of the subsidiary is included in the consolidated financial information from the date that control commences.

Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealized income and expenses arising from intra-group transactions, are eliminated in preparing the consolidated financial information.

(Formerly “AvivaSA Emeklilik ve Hayat Anonim Şirketi”)

NOTES TO CONSOLIDATED FINANCIAL INFORMATION
AS AT JUNE 30, 2021

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated.)

2. ACCOUNTING POLICIES (Continued)

2.3 Summary of significant accounting policies

Written premiums

Written premiums represent the policies on cancellations from prior years and premiums ceded to reinsurers and after tax deduction in addition to the policies written in the current year. Annual, long term and saving policies are accounted according to the accrual basis. For unit-linked life savings policies, premiums are recognized on a collection basis.

Premiums ceded to reinsurers

Premiums ceded to reinsurers consist of the premiums that are attributable to reinsurers in accordance with the provisions of the respective reinsurance contracts.

Net change in provision for unearned premium reserves

The portion of written premiums attributable to subsequent periods (gross of commission payable to intermediaries) is deferred as a provision for unearned premiums. The change in this provision is recognized as revenue in the information of profit or loss over the period of risk.

Unit-linked life savings policies (except for a small amount of mortality deductions relating to the life savings business) and long-term life insurance policies are not subject to unearned premium reserves.

Net change in mathematical reserves

Life insurance mathematical reserves are calculated according to actuarial principles on a prudent basis in order to ensure liabilities are fully met for policies longer than one year. Mathematical reserves are calculated on a prospective basis as the difference between the present value of liabilities and future premiums to be paid by the policyholders. The change in this provision is recognized as revenue in the information of profit or loss over the period of risk.

Income generated from pension business

Fees received from the pension business consist of (i) fund management fees, (ii) premium holiday charges, (iii) entry and deferred entry fees and (iv) account management fees and deferred income reserves. Revenues arising from fund management and other related services offered by the Group are recognized in the accounting period during which the service is rendered.

Fund management fees, which are calculated with reference to assets under management, are attributable to the hardware, software, personnel and accounting services provided to pension funds. Management fees are attributable to the operational costs of the services rendered to customers by the Group and can be deducted from the participants' funds. Premium holiday charges may be received when the participant does not pay his or her regular premium within three months of being due. Entry fees are fees received from the participant when he or she first enters the pension system and from any participants who have already entered into the system but create a new account in another pension company. Deferred entry fees may be charged to the participant and recorded as income in the event that he or she exits, merges or transfers accounts within the context of conditions defined in the contract as of the effective date of contract. Account management fees and deferred account management fees, which is effective with the BES 3.0 legislation, entered into force on January 1, 2016, and the reduction from contracts established in 2016. Effective from January 1, 2018 IAS 18 revenue recognition principle was replaced by IFRS 15 Revenue from contracts and it also requires the deferral of upfront fees over the life time of contracts. Management fees starting from 2016 are capped to 5 years according to new legislation, total of management fees are subject to deferral regarding IFRS 15. Also the entry fees recognized as revenue between the years 2013-2015 are deferred under IFRS 15. The Group applied 7 years for the average duration of the portfolio in line with the 7 years DAC amortization period estimate (31 December 2020: 7 years).

AGESA HAYAT VE EMEKLİLİK ANONİM ŞİRKETİ
(Formerly “AvivaSA Emeklilik ve Hayat Anonim Şirketi”)

NOTES TO THE CONSOLIDATED FINANCIAL INFORMATION
FOR THE PERIOD ENDED JUNE 30, 2021

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated.)

2. ACCOUNTING POLICIES (Continued)

2.3 Summary of significant accounting policies (Continued)

Income generated from pension business (Continued)

Pension fees are subject to limitations and caps in the form of maximum fees collectible from pension customers set out in the local regulation on pension system.

In the payment amounts and collection process were made regulation pursuant to “Amendment Regulation of Regulation on Individual Retirement System” came into force dated January 1, 2016. Deductions were able to receive from the accumulation of the participant with this regulation during five years within the scope of limits and rules.

For agreements which came into force dated before January 1, 2016, there will be no deduction from the agreements which filled 5 years as of the effective date even defined.

For the agreements which did not fill 5 years as of the effective date, if there is deduction over the annual limit, there will be no deduction until the anniversary, if there is deduction over 5 years limit, there is not any deduction as of this date. There can be entrance fee and administrative expense deduction in the first five years, exit without mandatory reasons, in case of leaving provided that defined to the product within the limits as of the effective date of agreement.

For the agreements which came into force dated after January 1, 2016; “Deferred Entrance Fee” can be deducted from the saving of the participant in the first five years for the policies which exits without mandatory reasons provided that it is defined to the product within the limits of regulation and rules.

Investment and other income (expense), net

Net investment and other income (expense) comprises interest income, net profit and loss on realization, dividend income, other income and expenses and investment management expenses.

Interest income is recognized in profit or loss using the effective interest method. The effective interest rate is the rate that exactly discounts the estimated future cash receipts through the expected life of the financial asset (or, where appropriate, a shorter period) to the carrying amount of the financial asset.

The calculation of the effective interest rate includes all fees and points paid or received transaction costs, and discounts or premiums that are an integral part of the effective interest rate. Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset.

Interest income presented in the information of comprehensive income includes:

- interest on financial assets at amortized cost on an effective interest rate basis,
- interest on available-for-sale financial assets on an effective interest rate basis,
- interest earned till the disposal of financial assets at fair value through profit or loss.

Net profit and loss on realization includes gains and losses arising from disposals of financial assets at fair value through profit or loss and available-for-sale financial assets.

Commission income and commission expenses

The Group receives commission income from reinsurance companies in respect of the ceded premiums in its life protection, personal accident and life savings business segments. Commission income is recognized on an accrual basis.

Commission expenses include third-party commissions paid in respect of the distribution of the Group’s life protection, life savings and personal accident business products through external channels including banks, agencies and brokers, and change in deferred acquisition costs. It does not include any distribution commissions for pension products, which are recorded separately under pension expenses including commissions. Commission expenses are recognized on an accrual basis.

AGESA HAYAT VE EMEKLİLİK ANONİM ŞİRKETİ
(Formerly “AvivaSA Emeklilik ve Hayat Anonim Şirketi”)

NOTES TO CONSOLIDATED FINANCIAL INFORMATION
AS AT JUNE 30, 2021

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated.)

2. ACCOUNTING POLICIES (Continued)

2.3 Summary of significant accounting policies (Continued)

Claims paid and change in outstanding claims provisions

Claims are recognized in the period in which they occur, based on reported claims or on the basis of estimates when not reported. The claims provision is the total estimated ultimate cost of settling all claims arising from events, which have occurred up to the end of the accounting period. Full provision is accounted for outstanding claims, including claim settlements reported at the period-end. Incurred but not reported claims are also provided for under the provision for outstanding claims, presented in insurance contract liabilities.

Pension expenses including commission

Pension business expenses primarily consist of (i) pension business commissions paid to third parties, (ii) fund management charges paid to asset management companies, (iii) service charges of the Pension Monitoring Center (EGM), Takasbank and the custodian bank of pension funds and (iv) other pension business-related expenses.

Commissions paid to banks and agencies for distribution of the Group’s pension products are recognized (net of deferred acquisition cost) under pension expenses. As required under Turkish pension regulations, the Group’s pension funds are managed by third party asset manager(s) who receive asset management fees according to the terms specified in the agreement signed between the parties and such management fees are recorded under pension expenses.

Cash and cash equivalents

In terms of presentation of cash flow information, cash and cash equivalents comprise cash at hand, demand deposits and other short-term highly liquid investments with original maturities of three months or less, which are readily convertible to cash and are subject to an insignificant risk of changes in value.

Property and equipment

The property and equipment purchased subsequent to this date are recorded at their historical cost. Accordingly, property and equipment are carried at cost, less accumulated depreciation and impairment losses. Depreciation is calculated using the straight-line method to write down the cost of such assets to their residual values over their estimated useful lives as follows:

Furniture and fixtures	2-15 years
Machinery and equipment	4 years
Other tangible assets	4-5 years
Leasehold improvements	5 years or term of rent contract

Where the carrying amount of an asset is greater than its estimated recoverable amount (higher of net selling price and value in use), it is written down immediately to its recoverable amount. Gains and losses on disposal of property and equipment are determined by reference to their carrying amount and are taken into account in determining operating profit.

Right of use assets and lease liabilities

Leases are recognized as a right-of-use asset and a corresponding liability at the date at which the leased asset is available for use by the Group. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. The right of use asset is depreciated over the lease term on a straight line basis.

The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be determined, the lessee’s incremental borrowing rate is used, being the rate that the lessee would have to pay to borrow the funds necessary to obtain an asset of similar economic environment with similar terms and conditions. As of 30 June 2021, the alternative borrowing rates used by the Group for Turkish Lira leases are 25% annually for leases before 2021 and 18% for 2021 leases. As of 30 June 2021, the Group has no foreign currency lease obligations.

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated.)

2. ACCOUNTING POLICIES (Continued)

2.3 Summary of significant accounting policies (Continued)

Intangible assets

Intangible assets mainly comprise computer software and internally generated software. They are recorded at acquisition cost and amortized on a straight-line basis over their estimated useful lives as three to five years from the acquisition date. Where an indication of impairment exists, the carrying amount of intangible assets is assessed and written down immediately to its recoverable amount.

Construction in progress refers to the Group’s software development projects to unify the basic insurance applications used within the structure of the Group and to use such applications by integration to all the surrounding systems. Personnel expenses and cost of the outsourced services associated directly with the development of the application are capitalised as incurred.

Financial instruments

Recognition

The Group initially recognizes loans and advances on the date which they are originated. Regular way of purchase and sales of financial assets are recognized on the trade date which the Group commits to purchase or sell the asset. All other financial assets and liabilities are initially recognized on the trade date at which the Group becomes a party to contractual provisions of the instrument.

Classification

The Group classifies its investments into the following categories: financial assets at fair value through profit or loss, loans and receivables, and available-for-sale financial assets. The classification depends on the purpose for which the investments were acquired. Management determines the classification of its financial assets at initial recognition and re-evaluates this at every reporting date.

Financial assets at fair value through profit or loss: Financial asset is classified into this category at inception if acquired principally for the purpose of selling in the short term, or if it forms part of a portfolio of financial assets in which there is evidence of short term profit making.

Available-for-sale financial assets: Available-for-sale (“AFS”) financial assets intended to be held for an indefinite period of time, which may be sold in response to needs for liquidity or changes in interest rates, exchange rates or equity prices, are classified as available-for-sale. Assets backing long term insurance contracts are classified as available-for-sale financial assets in the accompanying consolidated financial informations.

Financial investments with risks on policyholders classified as available for sale: Financial investments with risks on policyholders classified as available for sale consist of public securities, foreign currency Eurobonds and time deposits.

Loans and receivables: Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market other than those that the Group intends to sell in the short term or that it has designated as at fair value through profit or loss or available-for-sale. They arise when the Group provides money, goods and services directly to a debtor with no intention of trading the receivable.

Financial liability: Financial liability is any liability that is a contractual obligation to deliver cash or another financial asset to another entity.

AS AT JUNE 30, 2021

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated.)

2. ACCOUNTING POLICIES (Continued)

2.3 Summary of significant accounting policies (Continued)

Measurement

A financial asset or liability is measured initially at fair value plus, for an item not at fair value through profit or loss, transaction costs that are directly attributable to its acquisition or issue.

Subsequent to initial recognition, financial assets at fair value through profit or loss and available-for-sale financial assets are measured at fair values, except that any equity instrument that does not have a quoted market price in an active market and whose fair value cannot be reliably measured is stated at cost.

Gains and losses arising from changes in the fair value of financial assets at fair value through profit or loss are recognized in the information of comprehensive income in the period in which they arise. Unrealized gains and losses arising from changes in the fair values of available-for-sale financial assets are recognized in equity as “Fair value reserves from available-for-sale financial assets”. When available-for-sale financial assets are sold or impaired, the accumulated fair value reserves under equity are transferred to the information of comprehensive income as net realized gains/losses on financial assets.

All non-trading financial liabilities, loans and receivables are measured at amortized cost less impairment losses, if any. Amortized cost is calculated on the effective interest method. Premiums and discounts, including initial transaction costs, are included in the carrying amount of the related instrument and amortized based on the effective interest rate of the financial instruments.

Fair value measurement principles

The fair value of financial instruments is based on their quoted market price at the reporting date without any deduction for transaction costs. If a quoted market price is not available, the fair value of the instrument is estimated using pricing models or discounted cash flow techniques. Where discounted cash flow techniques are used, estimated future cash flows are based on management’s best estimates and the discount rate is a market related rate at the reporting date for an instrument with similar terms and conditions. Where pricing models are used, inputs are based on market related measures at the reporting date.

Derecognition

A financial asset is derecognized when the control over the contractual rights that comprise that asset, is lost. This occurs when the rights are realized, expire or are surrendered. The Group derecognizes a financial liability when its contractual obligations are discharged or cancelled or expired.

Available-for-sale financial assets and financial assets at fair value through profit or loss that are sold are derecognized and corresponding receivables from the buyer for the payment are recognized as at the date the Group commits to sell the assets. The specific identification method is used to determine the gain or loss on derecognition.

Offsetting

Financial assets and liabilities are offset and the net amount is reported in the information of financial position when there is a currently enforceable legal right to set off the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously.

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated.)

2. ACCOUNTING POLICIES (Continued)

2.3 Summary of significant accounting policies (Continued)

Impairment of financial assets

Premium and other insurance receivables

In determining whether an impairment loss should be recorded in profit or loss, the Group makes judgments as to whether there is any observable data indicating that there is a measurable decrease in the estimated amounts recoverable from a portfolio of premiums, other insurance receivables and individual premiums. Objective evidence that a financial asset or group of assets is impaired includes observable data that comes to the attention of the Group about the following loss events:

- (a) significant financial difficulty of the agency or debtor;
- (b) the Group granting to the agency, for economic or legal reasons relating to the agency’s financial difficulty, a concession that the lender would not otherwise consider;
- (c) it is probable that the agency will declare bankruptcy or enter into other financial reorganization;
- (d) the disappearance of an active market for the related financial asset because of financial difficulties; or
- (e) observable data indicating that there is a measurable decrease in the estimated future cash flows from a group of financial assets since the initial recognition of those assets, although the decrease cannot yet be identified with the individual financial assets in the group, including:
 - (i) adverse changes in the payment status of agencies; or
 - (ii) national or local economic conditions that correlate with defaults on the assets in the group.

If there is objective evidence that there occurs an impairment loss on receivables, the amount of the loss is measured based on the difference between the asset’s carrying amount and the estimated recoverable amount. The carrying amount of the asset is reduced through the use of an allowance account. The amount of the loss is recognized in profit or loss.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized (such as an improvement in the debtor’s credit rating), the previously recognized impairment loss is reversed by adjusting the allowance account. Any subsequent reversal of impairment loss is recognized in the information of comprehensive income, to the extent that the carrying value of the asset does not exceed its cost at the reversal date.

A write off is made when all or part of a premium receivable is deemed uncollectible or in the case of debt forgiveness. Such premium receivables are written off after all the necessary procedures have been completed and the amount of the loss has been determined. Write offs are charged against previously established allowances and reduce the amount of the insurance receivable. Subsequent recoveries of amounts previously written off are included in information of profit or loss.

The methodology and assumptions used for estimating both the amount and timing of recoverable amounts are reviewed regularly to reduce any differences between loss estimates and actual loss experience.

Available-for-sale financial assets

If an available-for-sale investment security is impaired, an amount comprising the difference between its cost (net of any principal payment and amortization) and its current fair value, less any impairment loss previously recognized in profit or loss, is transferred from equity to the profit or loss. Reversals of impairment losses on debt instruments are reversed through profit or loss; if the increase in fair value of the instrument can be objectively related to an event occurring after the impairment loss was recognized in profit or loss.

AGESA HAYAT VE EMEKLİLİK ANONİM ŞİRKETİ
(Formerly “AvivaSA Emeklilik ve Hayat Anonim Şirketi”)

NOTES TO CONSOLIDATED FINANCIAL INFORMATION
AS AT JUNE 30, 2021

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated.)

2. ACCOUNTING POLICIES (Continued)

2.3 Summary of significant accounting policies (Continued)

Reinsurance assets

If the reinsurance asset is impaired, the Group reduces its carrying amount accordingly and recognizes that impairment loss in the information of profit or loss. A reinsurance asset is impaired if, and only if:

- (a) there is objective evidence, as a result of an event that occurred after initial recognition of the reinsurance asset, that the Group may not receive all amounts and
- (b) that event has a reliably measurable impact on the amounts that the Group will receive from the reinsurer.

An insurance contract is a contract under which the Group accepts significant insurance risk from another party (the policyholder) by agreeing to compensate the policyholder if a specified uncertain future event (the insured event) adversely affects the policyholder. Insurance risk covers all risks except for financial risks. All premiums written within the coverage of insurance contracts are recognized as revenue under “written premiums” account.

Investment contracts are those contracts which transfer financial risk without significant insurance risk. Financial risk is the risk of a possible future change in a specified interest rate, financial instrument price, commodity price, foreign exchange rate, index of prices or rates, credit rating or credit index or other variable, provided, that it is not specific to a party to the contract, in the case of a non-financial variable.

Insurance contracts

Insurance contracts are contracts that provide protection to the insured against adverse economic consequences of an event of loss as covered under the terms and conditions stipulated in the insurance policy according to IFRS 4.

Financial Guarantee Contract is a contract which requires that the issuer make specific payments to reimburse the holder for the loss incurred by the debtor when a specific breach of its obligation to pay, in accordance with the conditions, original or amended, of a debt instrument.

According to IFRS 4, financial risk is the risk posed by a possible future change in one or more of the following variables: an interest rate specified the price of a financial instrument, the price of a commodity trading, an exchange rate, a price index or interest, a credit rating or an index or other variable. If this is a nonfinancial variable, it is necessary that the variable is not specific to one of the parties to the contract.

According to this, insurance contracts include changes in market prices, as well as insurance risk.

Some policies (Saving Life Policies) of the Group include financial return in addition to insurance risk and carry financial risk, accordingly. However these contracts are defined as insurance contracts also and accounted in this context. Because there are no contracts with a stand-alone financial risk in the Group’s portfolio and contracts carry significant insurance risk, mentioned policies are within the context of insurance contracts.

All policies in the Group portfolio are treated as insurance contracts.

Liability adequacy test

At each reporting date, an assessment is made of whether the recognized long-term business provisions are adequate, using current estimates of future cash flows. A liability adequacy test is required to ensure that losses do not remain unrecognized.

- a) the test considers current estimates of all contractual cash flows, and of related cash flows such as claims handling costs, as well as cash flows resulting from embedded options and guarantees; and
- b) if the best test shows that the liability is inadequate, the entire deficiency is recognised in profit or loss.

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated.)

2. ACCOUNTING POLICIES (Continued)

2.3 Summary of significant accounting policies (Continued)

Deferred acquisition costs (DAC)

Those direct and indirect costs incurred during the financial period arising from the writing or renewing of insurance contracts, are deferred to the extent that these costs are recoverable out of future premiums. All other acquisition costs are recognised as an expense when incurred.

Incremental direct costs which are essential to the contract transaction are subject to deferral. During the deferral of salaries, benefits and other costs, two criterias are evaluated and should be met; must have a direct role in acquisition activities and must be an essential activity resulting in the contract being issued. The Group management has identified that when the following criterias are met, expenses are subjected to deferral:

- Stand-alone direct sales force sales teams and sales managers’ commissions
- Bancassurance coaches’ and sales managers’ commissions
- Corporate sales teams commissions
- Third party, Akbank T.A.Ş. and agency commissions

Subsequent to initial recognition, DAC for life insurance are amortized over the expected life of the contracts as a constant percentage of expected premiums. Deferred commissions for personal accident insurance products are amortized over the period in which the related revenues are earned. The reinsurers’ share of deferred commissions is amortized in the same manner as the underlying asset amortization is recorded in profit or loss.

Deferral periods can be the average life-time of the contracts (which are longer than the lapse assumptions). The Group management has determined the life time period as seven years for pension contracts and as nine years for ROP products. The amount of DAC is subject to Liability Adequacy Test each year. The Group has applied straight line method for the amortization of DAC.

Provision for unearned premiums

The proportion of written premiums, gross of commission payable to intermediaries, attributable to subsequent periods is deferred as a provision for unearned premiums. The change in this provision is taken to profit or loss as recognition of revenue over the period of risk.

Unearned premium reserve is calculated on a daily basis for all policies in force as of information of financial position date for unearned portions of premiums written. During the calculation of unearned portion of premiums written on a daily basis, it is supposed that the policies start at 12:00 noon and end at 12:00 noon again. Unearned premium reserve and the reinsurers’ share of the unearned premium reserve for policies, are calculated and recorded as the deferred portion of the accrued premiums related to the policies in force and ceded premiums to reinsurers without deducting commissions or any other deduction, on a daily and gross basis.

Provision for outstanding claims/IBNR

Outstanding claims reserve represents the estimate of the total reported costs of notified claims on an individual case basis at the reporting date as well as the corresponding handling costs. A provision for claims incurred but not reported (“IBNR”) is also established as described below.

Estimates have to be made both for the expected ultimate cost of claims reported at the reporting date and for the expected ultimate cost of IBNR claims at the reporting date. It can take a significant period of time before the ultimate claims cost can be established with certainty. The primary technique adopted by management in estimating the cost of IBNR claims, is that of using past claim settlement trends to predict future claims settlement trends. At each reporting date, prior year claims estimates are reassessed for adequacy and changes are made to the provision. In addition to that, the Group also reassesses its notified claims provision at each reporting date on each claim file basis.

AGESA HAYAT VE EMEKLİLİK ANONİM ŞİRKETİ
(Formerly “AvivaSA Emeklilik ve Hayat Anonim Şirketi”)

NOTES TO CONSOLIDATED FINANCIAL INFORMATION
AS AT JUNE 30, 2021

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated.)

2. ACCOUNTING POLICIES (Continued)

2.3 Summary of significant accounting policies (Continued)

Mathematical reserves

Actuarial mathematical reserves are the difference between the premiums received for the risk undertaken by the companies and the cash values of the liabilities to the policyholders and beneficiaries. Actuarial mathematical reserves are calculated according to the formulas and principles specified in the technical principles of the tariffs for life insurance for more than one year and as of June 30, 2021, the company performs mathematical calculations based on Treasury approved tariffs. Actuarial mathematical reserves are calculated as the difference between the cash value of the insurer's future obligations and the present value of the premiums to be paid by the insurer in the future (prospective method).

Insurance companies operating in life branch allocate mathematical reserves, adequately according to actuarial principles, for long-term life policies in order to meet its obligations to beneficiaries and policyholders.

Mathematical reserves consist of actuarial mathematical reserves and profit share reserves, share of policyholders, determined from the income generated from mathematical reserves directed towards investment, that are calculated separately for each effective policy, in accordance with the technical principles in the tariffs.

Actuarial mathematical reserves are the difference between the premiums received for the risks assumed and cash value of liabilities to policyholders and beneficiaries. Actuarial mathematical reserves are provided for life insurance having more than one year of maturity, based on the formulas and elements of technical principles. Mathematical reserves are calculated on a prospective basis as the difference between the present value of liabilities and future premiums to be paid by the policyholders.

Profit share reserves consist of the income obtained from assets in relation to reserves provided for the obligations for the policyholders and beneficiaries in contracts for which the Group has committed to distribute profit shares; the guaranteed portion, not to exceed the technical interest income calculated based on the profit share distribution system prescribed in the approved technical principles of profit share and prior years' accumulated profit share reserves.

The Company applies deductions in accordance with the tariff technical principles of the product for the mathematical compensation of the policies exempt from premium payment (paid-up policy) within the scope of Return of Premium product. As stated in Article 1502 of the TCC, in insurance exempt from premium payment, the insurance amount is paid according to the ratio between the premium paid and the premium payable pursuant to the contract. Due to the expected changes in the legislation, it is expected that additional liabilities will occur in mathematical reserve calculations for the policies that are in the paid-up status of the Company and have not matured yet. The company has not made any adjustments to the paid-up mathematical reserve amount of TL 66,5 million recorded as of June 30, 2021, since the legislation has not yet been published. In the event that the risks subject to the above-mentioned calculations materialize in the upcoming periods, the period profitability and capital adequacy calculations for the said periods may be significantly affected.

Reinsurance contracts held

Contracts entered into by the Group with reinsurers under which the Group is compensated for losses on one or more life insurance contracts issued by the Group, and that meet the classification requirements for insurance contracts are classified as reinsurance contracts held. Reinsurance liabilities are primarily reinsurance premiums payable to reinsurance contracts and are recognized as an expense when due.

Reinsurance cessions of the Group are made on risk premium basis with regard to death benefit and supplementary benefits. For group and individual life reinsurance surplus agreements, cessions are made to the treaty reinsurers according to shares of the surplus amounts in excess of the Group retention limits which are approved by the Turkish Treasury.

NOTES TO THE CONSOLIDATED FINANCIAL INFORMATION
FOR THE PERIOD ENDED JUNE 30, 2021

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated.)

2. ACCOUNTING POLICIES (Continued)

2.3 Summary of significant accounting policies (Continued)

Pension business

The Group provides group and individual plans to customers.

The Group offers 38 pension investment funds (2020: 35). These pension funds are in different risk profiles according to the portfolio composition of the funds. The participants choose from among different pension funds within legal limitations and determine allocation rates for contributions and additional contributions according to the contract provisions. The participants gain right for retirement provided that they remain in the pension system for at least 10 years, pay contributions for at least 10 years and attain 56 years of age.

Pension business receivables consist of ‘receivable from pension investment funds for fund management fees’, ‘entry fee receivable from participants’ and ‘receivables from clearing house on behalf of the participants’. ‘Receivable from pension investment funds for fund management fees’ are the fees charged to the pension funds against for the administration of related pension funds which consist of fees which are not collected in the same day.

Pension business payables include participants’ temporary accounts, and payables to pension agencies. Pension business payables consist of payables to intermediaries in pension business, payables to custodians and payables to the Pension Monitoring Centre. The temporary accounts of participants consist of funds of participant which are yet not directed to investments and of payables due to sale of investments net of any entry fee payables by the participants and other deductions of participants who will either leave the pension business or who will transfer their funds to another insurance company. In case where collections from participants are performed or where cash is transferred to the Group subsequent to the sale of investments of the participants, the pension business payable account is credited. When the funds of participants are directed to investments or where the participants’ funds are transferred to another insurance company the account is debited.

Employee benefits

Provision for Termination Benefit Obligations

Provision for Termination Benefit Obligations represents the present value of the estimated future probable obligation of the Group arising from the retirement of the employees and calculated in accordance with the Turkish Labour Law. It is computed and reflected in the consolidated financial informations on an accrual basis as it is earned by serving employees. The computation of the liabilities is based upon the retirement pay ceiling announced by the Government. The maximum amount of TL 7,639 effective as of June 30, 2021 (December 31, 2020: TL 7,117) has been taken into consideration during calculation of provision from employment termination benefits.

IAS 19 - *Employee benefits* requires actuarial valuation methods to be developed to estimate the Group’s obligation for termination benefits. The principal statistical assumptions used in the calculation of the total liability in the accompanying consolidated financial informations at June 30, 2021 and December 31, 2020 is as follows:

	June 30, 2021 (%)	December 31, 2020 (%)
Expected rate of salary/yearly limit increase	8.50	8.50
Yearly iscount rate	13.50	13.50

Other benefits to employees

The Group has provided for undiscounted short-term employee benefits earned during the period as per services rendered in compliance with *IAS 19* in the accompanying consolidated financial informations.

Income on/Expense from Pension Operations

Details of income and expenses from pension operations are explained in detail in “e) Income generated from pension business” and “i) Pension expenses including commission above”.

AGESA HAYAT VE EMEKLİLİK ANONİM ŞİRKETİ
(Formerly “AvivaSA Emeklilik ve Hayat Anonim Şirketi”)

NOTES TO CONSOLIDATED FINANCIAL INFORMATION
AS AT JUNE 30, 2021

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated.)

2. ACCOUNTING POLICIES (Continued)

2.3 Summary of significant accounting policies (Continued)

Provisions

A provision is recognized when, and only when, the Group has a present obligation (legal or constructive) as a result of a past event and it is probable (i.e. more likely than not) that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate.

Where the effect of the time value of money is the amount of a provision is the present value of the expenditures expected to be required to settle the obligation.

Taxes on income

The tax expense represents the sum of the tax currently payable and deferred tax.

Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from net profit as reported in the information of profit or loss because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Group’s liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the balance sheet date.

Deferred tax

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying amounts of assets and liabilities in the consolidated financial information and the corresponding tax bases used in the computation of taxable profit, and is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognised for taxable temporary differences arising on investments in subsidiaries and associates, and interests in joint ventures, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realized based on tax laws and rates that have been enacted or substantively enacted at the balance sheet date. Deferred tax is charged or credited in the income information, except when it relates to items charged or credited in other comprehensive income, in which case the deferred tax is also dealt with in other comprehensive income.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current tax assets and liabilities on a net basis.

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated.)

2. ACCOUNTING POLICIES (Continued)

2.3 Summary of significant accounting policies (Continued)

Related parties

Parties are considered related to the Group if;

- (a) A person or a close member of that person's family is related to a reporting entity if that person:
- (i) has control or joint control over the reporting entity;
 - (ii) has significant influence over the reporting entity; or
 - (iii) is a member of the key management personnel of the reporting entity or of a parent of the reporting entity.
- (b) An entity is related to a reporting entity if any of the following conditions applies:
- (i) The entity and the reporting entity are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others).
 - (ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member).
 - (iii) Both entities are joint ventures of the same third party.
 - (iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity.
 - (v) The entity is a post-employment benefit plan for the benefit of employees of either the reporting entity or an entity related to the reporting entity. If the reporting entity is itself such a plan, the sponsoring employers are also related to the reporting entity.
 - (vi) The entity is controlled or jointly controlled by a person identified in (a).
 - (vii) A person identified in (a) (i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).

A related party transaction is a transfer of resources, services or obligations between related parties, regardless of whether a price is charged.

The Group management, groups associated to Sabancı Holding and Aviva are defined as related parties.

Foreign currency transactions

Transactions are recorded in TL, which represents the Group’s functional currency. Transactions denominated in foreign currencies are recorded at the exchange rates ruling at the dates of the transactions. Foreign currency denominated monetary assets and liabilities are converted into TL at the exchange rates ruling at the reporting date with the resulting exchange differences recognized in profit or loss as foreign exchange gains or losses.

Pursuant to the announcement of the Kamu Gözetimi Kurumu dated 15 March 2021, assets in foreign currency were valued at the Central Bank of the Republic of Turkey (TCMB) foreign exchange buying rate valid at the end of the reporting period, and monetary liabilities in foreign currency were valued with the effective TCMB foreign exchange selling rate as of the end of the reporting period. In the valuation of the liabilities, if a rate is determined on the contract, the exchange rate written in the contract is taken into account first. Unit-based policies are valued with the TCMB foreign exchange buying rate, while dividend policies are valued with the TCMB effective selling rate.

As of the balance sheet date of December 31, 2020, foreign currency receivables and debts are valued with the TCMB foreign exchange buying rates. In the valuation of liabilities, if an exchange rate is determined on the contract, the exchange rates written in the contract are taken into account. is valued with the TCMB effective selling rate.

Foreign currency transactions(Continued)

Foreign currency assets and liabilities are converted by using period end exchange rates of Central Bank of the Republic of Turkey’s bid rates.

The Central Bank of the Republic of Turkey exchange rates used in the conversion is as follows:

	June 30, 2021			December 31, 2020		
	USD / TL	Euro / TL	GBP / TL	USD / TL	Euro / TL	GBP / TL
Bid Rates	8.6803	10.3249	12.0008	7.3405	9.0079	9.9438
Ask Rates	8.7089	10.3590	12.0633	7.3647	9.0376	10.0107

Segment reporting

Reporting segments are determined to conform to the reporting made to the Group’s chief operating decision maker. The chief operating decision maker is responsible for making decisions about resources to be allocated to the segment and assess its performance. Details related to the segment reporting are disclosed in the Note 3.

2.4 Changes in accounting policy and disclosures

Consolidated financial informations of the Group have been prepared comparatively with the prior period in order to give information about financial position and performance. If the presentation or classification of the consolidated financial informations is changed, consolidated financial informations of the prior periods are also reclassified in order to maintain consistency with the current year’s presentation in line with the related changes.

a) Standards, amendments and interpretations applicable as at 30 June 2021:

The group evaluated the effects of the standards and changes mentioned below on the financial informations and concluded that the changes made did not have a significant impact on the financial informations.

- **Amendment to IFRS 16, ‘Leases’ - Covid-19 related rent concessions Extension of the Practical expedient;** as of March 2021, this amendment extended till June 2022 and effective from 1 April 2021. As a result of the coronavirus (COVID-19) pandemic, rent concessions have been granted to lessees. Such concessions might take a variety of forms, including payment holidays and deferral of lease payments. On 28 May 2020, the IASB published an amendment to IFRS 16 that provides an optional practical expedient for lessees from assessing whether a rent concession related to COVID-19 is a lease modification. Lessees can elect to account for such rent concessions in the same way as they would if they were not lease modifications. In many cases, this will result in accounting for the concession as variable lease payments in the period(s) in which the event or condition that triggers the reduced payment occurs.
- **Amendments to IFRS 7, IFRS 4 and IFRS 16 Interest Rate Benchmark Reform Phase 2;** effective from annual periods beginning on or after 1 January 2021. The Phase 2 amendments address issues that arise from the implementation of the reforms, including the replacement of one benchmark with an alternative one.
- **Amendments IFRS 4, ‘Insurance contracts’, deferral of IFRS 9;** effective from annual periods beginning on or after 1 January 2021. These amendments change the fixed date of the temporary exemption in IFRS 4 from applying IFRS 9, Financial Instrument until 1 January 2023.

2. ACCOUNTING POLICIES (Continued)

2.4 Changes in accounting policy and disclosures (Continued)

b) Standards, amendments and interpretations that are issued but not effective as at 30 June 2021:

The company has evaluated the changes in the not yet effective standards mentioned below and has begun to work on the IFRS 17 standard and its effects. Apart from the IFRS 17 standard, the company concluded that the changes made did not have a significant impact on the financial informations.

- **IFRS 17, ‘Insurance contracts’;** effective from annual periods beginning on or after 1 January 2023. This standard replaces IFRS 4, which currently permits a wide variety of practices in accounting for insurance contracts. IFRS 17 will fundamentally change the accounting by all entities that issue insurance contracts and investment contracts with discretionary participation features.
- **Amendments to IAS 1, Presentation of financial informations’ on classification of liabilities;** effective from 1 January 2022. These narrow-scope amendments to IAS 1, ‘Presentation of financial informations’, clarify that liabilities are classified as either current or non-current, depending on the rights that exist at the end of the reporting period. Classification is unaffected by the expectations of the entity or events after the reporting date (for example, the receipt of a waiver or a breach of covenant). The amendment also clarifies what IAS 1 means when it refers to the ‘settlement’ of a liability.
- **A number of narrow-scope amendments to IFRS 3, IAS 16, IAS 37 and some annual improvements on IFRS 1, IFRS 9, IAS 41 and IFRS 16;** effective from Annual periods beginning on or after 1 January 2022.
 - **Amendments to IFRS 3, ‘Business combinations’** update a reference in IFRS 3 to the Conceptual Framework for Financial Reporting without changing the accounting requirements for business combinations.
 - **Amendments to IAS 16, ‘Property, plant and equipment’** prohibit a company from deducting from the cost of property, plant and equipment amounts received from selling items produced while the company is preparing the asset for its intended use. Instead, a company will recognise such sales proceeds and related cost in profit or loss.
 - **Amendments to IAS 37, ‘Provisions, contingent liabilities and contingent assets’** specify which costs a company includes when assessing whether a contract will be loss-making.

Annual improvements make minor amendments to IFRS 1, ‘First-time Adoption of IFRS’, IFRS 9, ‘Financial instruments’, IAS 41, ‘Agriculture’ and the Illustrative Examples accompanying IFRS 16, ‘Leases’.

- **Narrow scope amendments to IAS 1, Practice information 2 and IAS 8;** effective from annual periods beginning on or after 1 January 2023. The amendments aim to improve accounting policy disclosures and to help users of the financial informations to distinguish between changes in accounting estimates and changes in accounting policies.
- **Amendment to IAS 12 – Deferred tax related to assets and liabilities arising from a single transaction;** from annual periods beginning on or after 1 January 2023. These amendments require companies to recognise deferred tax on transactions that, on initial recognition give rise to equal amounts of taxable and deductible temporary differences.

Annual improvements make minor amendments to IFRS 1, ‘First-time Adoption of IFRS’, IFRS 9, ‘Financial instruments’, IAS 41, ‘Agriculture’ and the Illustrative Examples accompanying IFRS 16, ‘Leases’.

AGESA HAYAT VE EMEKLİLİK ANONİM ŞİRKETİ
(Formerly “AvivaSA Emeklilik ve Hayat Anonim Şirketi”)

NOTES TO CONSOLIDATED FINANCIAL INFORMATION
AS AT JUNE 30, 2021

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated.)

2. ACCOUNTING POLICIES (Continued)

2.5 Critical accounting estimates and judgments in applying accounting policies

The preparation of consolidated financial information requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

Deferred acquisition costs (DAC)

Those direct and indirect costs incurred during the financial period arising from the writing or renewing of insurance contracts, are deferred to the extent that these costs are recoverable out of future premiums. All other acquisition costs are recognised as an expense when incurred.

Deferral periods can be the average life-time of the contracts (which are longer than the lapse assumptions). The Group management reviews the historical lapse development for pension and ROP contracts each period. As of June 30, 2021, the estimated life time of the pension and ROP contracts is defined as seven years and nine years respectively. The amount of DAC is subject to Liability Adequacy Test each year. The Group has applied straight line method for the amortization of DAC in the average-life time of the contracts.

Deferred income reserve (DIR)

IFRS 15 Revenue from Contracts with Customers requires the recognition of revenue over the life time of contracts. The Group applied seven years of amortization in line with DAC.

Ultimate liability arising from claims made under insurance contracts

The estimation of the ultimate liability arising from claims made under insurance contracts is executed depending on different assumptions. Mortality tables (CSO 1953-58, CSO 80 (Male-Female) approved by the Turkish Treasury are used to estimate the ultimate liability arising from life insurance policies. For estimating the risk of critical illness, the Critical Illness Rating Tables which are recommended by leader treaty reinsurer are used.

Estimate of future benefit payments and premiums arising from long-term insurance contracts

For estimation of future benefit and premium payments, four parameters have significant impacts:

- i) The lapse and surrender rates: These estimated rates are derived from past experience. In its estimation, the Group also takes into consideration the economic crisis or positive economic developments that will affect the rates either in a positive or a negative way.
- ii) Number of deaths: While estimating number of deaths in a year, the historical mortality experiences are used.
- iii) Future investment income: This estimate is based on current market returns as well as expectations about future economic and financial developments.
- iv) Average premium per insured: The assumption is based on historical trends in average premium amounts per insured and economical expectations that may affect the average premium amount.

Employee termination benefits

In accordance with existing social legislation in Turkey, the Group is required to make lump-sum termination indemnities to each employee who has completed over one year of service with the Group and whose employment is terminated due to retirement or for reasons other than resignation or misconduct. In calculating the related liability to be recorded in the consolidated financial information for these termination benefits, the Group makes assumptions and estimations relating to the discount rate to be used, turnover of employees, future change in salaries/limits, etc. These estimations which are disclosed in Note 2.3 and Note 18 are reviewed regularly.

FOR THE PERIOD ENDED JUNE 30, 2021

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated.)

2. ACCOUNTING POLICIES (Continued)

2.5 Critical accounting estimates and judgments in applying accounting policies (Continued)

Doubtful receivables provisions

Doubtful receivables provisions are related to the total amount of receivables assessed by the Group’s management, to cover the future potential losses arising from the non-collectability of the receivables as of the balance sheet date, upon the current state of the economy. The total amount of the provision is determined according to the valuation results, performances, market credibility, collection performances following balance sheet date, and the restructuring on the receivables. The doubtful receivables provision as of the balance sheet date is disclosed in Note 8.

Provision for litigations

In determining the provision for litigations, the Management considers the probability of legal cases to be brought against the Group and in case it is brought against the Group considers its consequences based on the assessments of legal advisor. The Group management makes its best estimates using the available data provided (Note 16).

2.6 Covid-19

General Explanation;

Regarding to Coronavirus (Covid-19) pandemic, Group has taken the necessary actions for the safety of its employees, customers and the society. Group is evaluating the current news related to pandemic, and sharing all the decisions with its employees and customers as soon as possible.

As of March 16, 2020, Group is carrying out its business processes with remote working model. The office is under strict health and safety measures, with the utmost care to maintain social distance, for those who are required to be there as per their duties. The face-to-face customer meetings held by the sales teams are suspended, Group Mobile application, Group Individual and Corporate internet branches, social media accounts and Customer Support Center continue to provide services in line with the Business Continuity Plan in order to implement customers’ transactions and requests regarding to their contracts and policies. In addition, the Group completed its infrastructure preparations for distance selling in July in order to support new business generation.

In line with the normalization processes, sales teams started face-to-face customer meetings on a voluntary basis in a controlled manner as of 15 June 2020, without going to the sales offices in line with the precautions and directions taken by the company. However, as the pandemic conditions have become negative again, our entire sales organization continues its services by using remote working methods without making face-to-face customer visits between 13 November 2020 and 28 February 2021. With the measures taken giving results, in parallel with the decisions taken by the Ministry of Health, our financial advisors started to make customer visits on the days determined on the basis of the province in March, taking all measures, and continue to work remotely on other days.

The Group acts cautiously about the return plan of the Headquarters teams and takes all necessary precautions. As of November 16, 2020 employees who are not able to perform their duties remotely are allowed to enter the building in a planned manner by taking all precautions.

Covid-19 Legal Regulations,

- Short-time working allowance will be made in line with the employers' information, without waiting for the completion of the eligibility determination, for the compelling reasons for short work applications made by the employers due to the coronavirus.

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated.)

2. ACCOUNTING POLICIES (Continued)

2.6 Covid-19 (Continued)

- All kinds of employment or service contracts cannot be terminated by the employer for the next three months, except for the situations that do not comply with the rules of ethics and goodwill or similar reasons. Considering only three months of period, employers may obligate the employees for full or partial unpaid vacation leave. In addition, within the scope of the same change, by adding temporary article 24 to the Labor Law numbered 4857; Workers who had an employment contract as of 17.04.2020 but who were granted unpaid leave by the employer pursuant to the provisional article 10 of the Labor Law No.4857 and who would not be able to benefit from short work allowance, and the employment contract was terminated within the scope of Article 51 of Law No.4447 after 15.03.2020 and Workers who cannot benefit from unemployment benefits are provided with cash wage support for the period of unpaid leave or unemployment, provided that they do not receive old-age pension from any social security institution and are limited to the termination of employment. With the "Presidential Decree numbered 3592" published in the Official Gazette dated 09.03.2021, the aforementioned applications, which were extended until 17.03.2021 with the Presidential Decree numbered 3344, were once again extended for two months.

In line with this practice, the company made applications for individual short-time work allowance for April, May and June under the relevant law article for sales staff, and sales teams benefited from short-time work allowance in April-May-June. In April, the necessary applications for cash wage support were made for employees who could not benefit from the short-time working allowance, valid from May, and in April, employees who could not benefit from the short-time working allowance were granted an annual leave for unemployed periods.

Presidential Decision dated 29 June 2020 and numbered 2706 in the Official Gazette dated 30 June 2020:

Within the framework of the principles stated in the additional article 2 of the Unemployment Insurance Law dated 25/8/1999 and numbered 4447 and the temporary article 23, the duration of the short-time working allowance for workplaces that applied for short-term work until 30 June 2020 (including this date) for compelling reasons within the context of periodic situations due to external influences due to the new coronavirus (Covid-19); without the need for a new application and eligibility assessment, for the same workers who have previously benefited from short work and provided that they do not exceed the same conditions, as of 1 July 2020 in terms of workplaces whose short work application has ended before the publication date of this decision, in terms of workplaces whose short-term practice continued on the date of publication of this decision, one month has been extended starting from the short-term end date. With the President's Decree No. 3556 published in the Official Gazette dated 19 February 2021 and numbered 31400, the short-time work allowance originating from COVID-19 was extended until March 31, 2021.

The Group made the necessary applications for its sales staff in accordance with the related decision numbered 2706 published in the Official Gazette on 30 June 2020 and benefited from short-time working allowance until 31 July 2020.

According to the Presidential decision published in the Official Gazette on 23 December 2020, the "31 December 2020" date in the provisional article 6 of the decision regarding the determination of Value Added Tax rates to be applied to goods and services has been changed to 31 May 2021.

The annex of the Presidential Decree No. 3319, published in the Official Gazette dated 23 December 2020 and numbered 31343, and the Council of Ministers Decisions numbered 2009/14592 and 2009/14594 regarding the withholding tax rates in Articles 94 of the Income Tax Law and 15th of the Corporate Tax Law decisions have been changed.

With the aforementioned amendment, within the framework of the President's Decree No. 2813 published in the Official Gazette dated 31 July 2020 and numbered 31202, the term of the lease payments, which were reduced in the withholding rate until 31 December 2020, was extended until 31 July 2021.

The company has calculated the leases, which are subject to IFRS 16, for the periods specified in the President's Decisions, taking into account the new withholding and VAT rates, and reflected them in its financial informations.

2. ACCOUNTING POLICIES (Continued)

2.6 Covid-19 (Continued)

Significant changes in the Group, Tariff changes, strategy changes

Industry announcement of SEDDK 36908670-010.07.02-E-221551 dated 25 March 2020 on the measures taken for the covid-19 outbreak and facilitating the payment of insurance premiums, one month additional period has been granted for policy cancellations. Within the scope of this announcement, the Group postponed the cancellation that should be made at the end of April, May and June to the policies that could not pay the following due date until the end of July.

The Group started Customer information on policy collections as of July 1, in line with the new normalization process decisions made by the Presidency dated June 10, 2020. The cancellations of the policies, which are not collected, realized as of the end of July.

The Group made advance incentive commission payments in order to minimize the potential negative effects of COVID-19 outbreak on commercial activities carried out under the agency agreement. The portion of the advance paid Temporary Incentive Commission amount that corresponds to monthly production is accepted as a “partial progress payment” and reflected in the profit and loss information.

3. SEGMENT INFORMATION

Information related to the operational reporting made by the Group to the chief operating decision-maker in accordance with the “IFRS 8 - Operating Segments” is disclosed in this note. The Group manages its business through the following business segments:

Life Protection

The Group’s life insurance business is principally related to life protection insurance, including credit-linked life and non-credit-linked life policies, such as term life, return of premium, critical illness and unemployment.

- Credit-linked life insurance policies represent the largest group of products historically offered by the Group, both in terms of the number of valid insurance policies and by share of the gross written premiums in the total gross written premiums earned by the Group. The Group offers both long-term and short-term credit-linked life insurance. Long-term credit-linked life insurance includes insurance policies relating to mortgages or consumer loans for terms greater than one year. Short-term credit-linked life insurance includes yearly renewable insurance policies relating to consumer loans with accidental disability and optional unemployment covers check credit life and SME credit life.
- Non-credit-linked (term) life insurance policies provide life protection insurance for a certain period of time. The insurance covers the insuree’s life. In the event of death, the beneficiary receives the amount insured. Individual protection insurance may be entered into only with regular premium installments in amounts pre-determined for the entire contract period. The Group offers customizable life insurance riders including involuntary unemployment, critical illness, accidental death, and disability due to accident or sickness in its non-credit-linked product portfolio.

Life Savings

Life savings products are generally written for a contract period, during which the insured makes regular premium payments into a unit, in return for a unit-price guaranteed.

AGESA HAYAT VE EMEKLİLİK ANONİM ŞİRKETİ
(Formerly “AvivaSA Emeklilik ve Hayat Anonim Şirketi”)

NOTES TO CONSOLIDATED FINANCIAL INFORMATION
AS AT JUNE 30, 2021

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated.)

3. SEGMENT INFORMATION (Continued)

Personal Accident

Personal accident policies provide coverage against disability, death and medical expenses due to accident. The insurance covers the insuree’s life. In the event of a defined accident, the beneficiary receives the amount insured. Individual protection insurance may be entered into with a single premium or with regular premium installments in amounts pre-determined for the entire contract period.

Pension

The Group offers a number of individual and corporate pension plans within the framework of the private pension system in Turkey.

The segment information below is presented on the basis used by the chief operating decision-maker to evaluate performance. Premium production and technical profit are considered while determining operating segments. Technical profit is the profit that the Group derives from providing insurance coverage, exclusive of the income it derives from investments. The chief operating decision-maker reviews discrete financial information for each of its segments, including measures of operating results. The segments are managed primarily on the basis of their results, which are measured on a basis which is broadly consistent with the Summary of Significant Accounting Policies described in Note 2, with the exception of certain adjustments. Management considers that this information provides the most appropriate way of reviewing the performance of the business.

Since the Group operates principally in Turkey, geographic segment information is not presented.

Commission expenses: Represents commission expenses included in general and administrative expenses in the information of profit or loss under IFRS which are attributable to life protection, life savings, pension and personal accident segments.

Net change in mathematical reserves: Net change in mathematical reserves are a component of net premiums earned as per the Group’s segment reporting; whereas this is presented as part of total income after net premiums earned in the information of profit or loss under IFRS.

Other: Adjustments included in other represent individually insignificant reclassifications.

Transactions between the business segments are on normal commercial terms and conditions.

Below are the reconciliations of the information of profit or loss:

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated.)

4. INSURANCE AND FINANCIAL RISK MANAGEMENT

The Group has developed and implemented a risk management structure to protect it against events that undermine sustainable performance, solvency or the achievement of strategic objectives. The risk management system is a fundamental part of the daily operations and ongoing performance of the Group. By identifying, analyzing, measuring, controlling, managing, reporting and mitigating risks that may arise in the course of its operations in a timely manner, the Group intends to, among other things, comply with applicable legislative and regulatory requirements, meet its obligations towards its customers and counterparties and maintain capital adequacy.

The Group’s approach to risk management is based on the following elements:

- Ensuring compliance with legal obligations and the Group’s risk management policies;
- Identifying all structural risks the Group is exposed to and defining risk acceptance criteria; and;
- Designing and applying internal control mechanisms and actions to seek to address these risks, and assuring the Board of Directors about the transparent reporting of such risks.

The Board of Directors has overall responsibility for the risk and control environment, including setting the Group’s risk appetite, risk strategy and target operating model, and risk management and internal control systems.

Early Risk Detection Committee

Pursuant to the Regulation on Internal Systems and a resolution of AvivaSA’s Board of Directors dated July 15, 2011 and numbered 2011/29, AvivaSA established a risk committee. Subsequently, pursuant to a resolution of AvivaSA’s Board of Directors dated October 17, 2014 and numbered 2014/62, the risk committee was restructured to replace the former risk committee in compliance with the Corporate Governance Principles (the Early Risk Detection Committee). Pursuant to the Corporate Governance Communique, an early risk detection committee is to be responsible for the preliminary detection of risks that may endanger the existence, development and continuity of a public company. Such committee is also responsible for supervising the implementation of appropriate remedial measures and the performance of risk management activities, during the course of which it must monitor, at least once a year, the risk management systems of the Group.

Risk Management Framework

The Group aims to maximize Market Consistent Embedded Value (MCEV) and Shareholders’ expectations within the risk appetite framework. It is provided by consistent and strong risk management process are applied companywide.

AgeSA Hayat ve Emeklilik Anonim Şirketi (formerly “AvivaSA Emeklilik ve Hayat Anonim Şirketi”)’s risk management framework “(RMF)” forms an integral part of the management and Board processes and decision making framework. The key elements of our risk management framework comprise risk appetite, risk governance including risk policies and business standards, risk oversight committees and roles and responsibilities and the processes we use to identify, measure, manage, monitor and report “(IMMMR)” risks.

Roles and responsibilities for risk management are based around the “three lines of defence model” where ownership for risk is taken at all levels in the Group.

- *First line of defence (Management):* Primary responsibility for risk identification, measurement, management, monitoring and reporting lies with management. The first-line management is responsible for the implementation and practice of risk management, as well as establishing internal control systems.
- *Second line of defence (Risk and Internal Control Function):* Risk and Internal Control function is accountable for oversight and challenge of the IMMMR process and for developing the risk management framework.
- *Third line of defence (Internal audit function):* Internal Audit function provides an independent assessment of the risk framework and internal control processes.

4. INSURANCE AND FINANCIAL RISK MANAGEMENT (Continued)

The Group’s risk management model identifies risk classes, which are then further highlighted under risk management policies and standards. These risk management policies and standards act as practical guides explaining how the Group can manage any financial, operational and nominal losses in the most appropriate way, by identifying the risks inherent in the life insurance and private pension industry, analyzing measurable data concerning these risks and establishing limits for such risks for the Group and its management.

The following diagram sets out the Group’s risk policy framework:

The Group also adheres to the following business policies and standards as regards risk management:

Risk policies

The risk management policies set the basic principles and standards for the risk management system and processes. The policies are approved by the Board of Directors and the amendments require the Board of Directors approval. The tools required to determine, measure, manage, monitor and report the risk vary by the risk type. Therefore, the risk policy framework includes six risk policies, including the Risk Management Framework Policy, special to each risk type to which the Group is exposed: life insurance and private pension, credit, market, liquidity and operational risk.

Business standards

The Group recognizes the importance of consistent and controlled business processes as a form of risk management. Each risk policy is therefore supported by a number of associated business standards which sets out the requirements for operating consistent processes across its most important business activities.

Primary risks facing the Group are Insurance Risk and Financial Risk (comprising mainly Market Risk and Credit Risk).

Insurance Risk

This is the risk that the insurance premiums allocated by the Group may not meet the claim liabilities and profit share payments and any payment in relation to claims and damages may exceed its expectations. Life insurance risk includes, death, disability, additional collateral due to accidents and dangerous diseases etc.

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated.)

4. INSURANCE AND FINANCIAL RISK MANAGEMENT (Continued)

Insurance Risk (Continued)

a) Life insurance

Life insurances are offered as individual and group contracts in short and long term periods. Mortality risk (the risk that more than expected insured parties die), disability, critical illness and additional collateral play an important role in the life insurance businesses of the Group. The all risk associated with the Group’s life insurance mentioned above and related rider businesses have been partly reinsured.

The life insurance businesses are also exposed to lapse risk and persistency risk. Lapse risk is the risk that policies exit prior the maturity. Persistency risk is defined as the risk of a sustained increase in lapse rates, unexpected volatility in lapse rates and mass lapses. Whether policyholders terminate or renew (explicitly or through automatic renewal) their insurance policies depends on consumer expectations and developments in the financial markets. Managing the attractiveness of life insurance products for customers and intermediaries as well as close monitoring of developments in the portfolio are key to mitigating this risk.

In case of technical interest rates remain below the guaranteed return on investment returns on life insurance will be taken of the cumulative premium investment risk is the risk of the insurance company is concerned.

b) *Personal accident (Non-Life)*

Personal Accident insurances are offered as individual or group contracts. Personal accident insurance contains the risk like accidental death and accidental disability. Disposals and customer retention risks are also among the risk of personal accident insurance. The personal accident insurance as well as life insurance should be given as additional collateral to guarantee unemployment insurance, reinsurance collateral is transferred to all.

c) *Pensions*

The pensions business is also exposed to lapse risk, which is the risk of cancelling contracts, transfers out to competitors and termination of pension policies at maturity (*i.e.*, retirement).The investment risk under pension contracts is borne by the customer. The customer evaluates its pension fund investments according to its own preferences.

Assessment and claims settlement

In order to assess insurance risk, and accordingly manage the claim and premium balance, determine liabilities accurately and ensure sufficient provisioning to meet liabilities, the Group performs the following analyses:

- experience investigations on claims;
- persistency reports on lapses and transfer outs; and
- Market-Consistent Embedded Value (“MCEV”)

Claims handling is organized in a specialized department within the operations division of the Group, handling both individual and corporate policies, and the assessment and settlement of incurred claims takes place on a monthly basis.

Insurance Risk Management

The purpose in managing risks arising from insurance contracts and policies designed to reduce such risks:

The insurance risk is a risk transferred by insured to insurer, apart from financial risk. Transferred risk is about an uncertain future incident. Uncertainty arises from lack of information about whether the incident is going to happen or not or about its size or timing.

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated.)

4. INSURANCE AND FINANCIAL RISK MANAGEMENT (Continued)

Insurance Risk Management (Continued)

The ratio of premiums collected by insurer to claim paid to insured denotes a Company’s capacity to meet insurance risk.

As at June 30, 2021 and December 31, 2020, Company’s claim/premium ratio related branches are given below. It is observed that premiums collected provide a capacity to meet any incurred claims:

Net claims ratio	June 30, 2021	December 31, 2020
Life	18%	28%
Personal Accident (Casualty)	3%	3%

As at June 30, 2021 and December 31, 2020 that part of total risk which is ceded to reinsurers is given below on a risk coverage basis.

June 30, 2021

Life							
Natural death	Accidental Death	Accidental disability	Sickness disability	Dangerous Sickness	Public Transport	Unemployment	Accidental Treatment Cost
7.80%	11.61%	2.73%	2.54%	51.05%	10.77%	100.00%	15.47%

Personal Accident			
Accidental death	Accidental disability	Accidental treatment cost	Unemployment
0.77%	1.33%	0.03%	100.00%

December 31, 2020

Life							
Natural death	Accidental Death	Accidental disability	Sickness disability	Dangerous Sickness	Public Transport	Unemployment	Accidental Treatment Cost
7.66%	15.41%	3.18%	2.89%	54.79%	15.18%	100.00%	1.10%

Personal Accident			
Accidental death	Accidental disability	Accidental treatment cost	Unemployment
7.00%	11.50%	0.02%	100.00%

Sensitivity to Insurance Risk

The Group’s policy production strategy is based on optimal distribution of risk to reinsurance companies according to policy type, as well as to kind and size of risk taken. At June 30, 2021 and December 31, 2020 the Group has both proportional and non-proportional reinsurance treaties.

Outstanding claims are reviewed and updated periodically by claims department.

The Group executes insurance contracts in life insurance and personal accident branches. Accordingly, in such insurance contracts, insurance risk concentration according to nature of the subject-matter of insurance are summarized below in gross and net figures (net of reinsurance):

June 30, 2021	Total gross risk liability	Share of reinsurer in total risk liability	Net risk liability
Life	78,055,781,392	(6,089,613,503)	71,966,167,889
Personal Accident	25,533,406,736	(263,247,762)	25,270,158,974
Total	103,589,188,128	(6,352,861,265)	97,236,326,863
December 31, 2020	Total gross risk liability	Share of reinsurer in total risk liability	Net risk liability
Life	64,035,368,614	(4,907,509,190)	59,127,859,424
Personal Accident	28,358,639,571	(2,562,790,806)	25,795,848,765
Total	92,394,008,185	(7,470,299,996)	84,923,708,189

AGESA HAYAT VE EMEKLİLİK ANONİM ŞİRKETİ
(Formerly “AvivaSA Emeklilik ve Hayat Anonim Şirketi”)

NOTES TO THE CONSOLIDATED FINANCIAL INFORMATION
FOR THE PERIOD ENDED JUNE 30, 2021

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated.)

4. INSURANCE AND FINANCIAL RISK MANAGEMENT (Continued)

Sensitivity to Insurance Risk (Continued)

The Group’s gross provision for outstanding claims at June 30, 2021 and December 31, 2020 are as follows:

Outstanding Claims	June 30, 2021	December 31, 2020
Life	84,586,513	79,262,316
Personal Accident	7,101,796	7,572,909
Total	91,688,309	86,835,225

Financial Risk

Financial risk arises from the financial instruments used by the Group, such as cash, time bank deposits, government bonds, treasury bills, private sector bonds and Eurobonds. The specific risks arising from such instruments and insurance contract liabilities are as follows:

a) Market Risk

Market risk refers to the risk of incurring financial losses as a result of fluctuations in the fair value of a financial instrument or expected future cash flows from a financial instrument and the risk that fair value of cash flows resulting from liabilities (including insurance liabilities) will change due to fluctuations in the level or the volatility of market variables. Market risk consists of equity risk, inflation risk, property risk, commodity risk and, more importantly for the Group, interest rate risk and foreign exchange risk.

i) Foreign Currency Risk

The Group is exposed to foreign exchange risk through the impact of rate changes at the translation of Turkish Lira pertaining to foreign currency denominated receivables and payables.

Foreign currency sensitivity analysis as of June 30, 2021 and December 31, 2020 are as follows:

At June 30, 2021, on condition that all variables remain constant, effect of a 20% appreciation/devaluation of Eurobonds against TL on owners’ equity is TL 783,728/ (783,728). As at December 31, 2020, on condition that all variables remain constant, effect of a 20% appreciation/devaluation of Eurobonds against TL on owners’ equity is TL 7,633,800/ (7,633,800).

June 30, 2021:

Liabilities and assets in foreign currency	Effect on income/expense		
	USD (*)	EUR (*)	GBP (*)
Exchange rate variation (*)			
20%	16,790,974	664,054	10,604
(20%)	(16,790,974)	(664,054)	(10,604)

December 31, 2020:

Liabilities and assets in foreign currency	Effect on income/expense		
	USD (*)	EUR (*)	GBP (*)
Exchange rate variation (*)			
20%	18,583,186	(389,650)	(11,500)
(20%)	(18,583,186)	389,650	11,500

(*) All amounts are presented in TL.

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated.)

4. INSURANCE AND FINANCIAL RISK MANAGEMENT (Continued)

Financial Risk (Continued)

a) Market Risk (Continued)

ii) Interest Risk

The Group’s sensitivity to interest rate risk is related to the change in the fair values or expected cash inflows of the financial assets due to the fluctuations in the interest rates. The Group closely monitors interest rate risk by monitoring market conditions and appropriate valuation methods.

In the following table, on condition that all other variables remain constant, it is disclosed that the effect of 100 base points and 500 base points increase / decrease in market interest rates on securities. The underlying logic used in this projection; by using of upward and downward changes in the weighted average interest rates of securities in the market, calculating how much the present value of future cash flows can be affected by amount. In the related calculation, the methods valid in the market for interest sensitivity are used.

The company implements stress tests and scenarios for interest rate risk in routine basis and creates an action plan by considering these studies while determining the distribution of strategic assets.

As at June 30, 2021 :

Total of trading and available for sale financial assets Market interest increase / (decrease) (**)	Effect Profit and Loss		
	TL	USD (*)	EUR (*)
5%	(37,529,663)	(21,614,641)	(20,552)
(5%)	37,529,663	21,614,641	20,552
1%	(7,505,933)	(43,229,283)	(41,104)
(1%)	7,505,933	43,229,283	41,104

(*) Amounts are presented in TL.

(**) Interest risk computed according to a 0.5% variation in interest rates for USD and EUR portfolio.

As at December 31, 2020 :

Total of trading and available for sale financial assets Market interest increase / (decrease) (**)	Effect Profit and Loss		
	TL	USD (*)	EUR (*)
5%	(27,463,974)	(25,746,612)	(20,467)
(5%)	27,463,974	25,746,612	20,467
1%	(5,492,795)	(51,493,223)	(40,934)
(1%)	5,492,795	51,493,223	40,934

(*) Amounts are presented in TL.

(**) Interest risk computed according to a 0.5% variation in interest rates for USD and EUR portfolio.

b) Credit Risk

Credit risk is the failure of Group to third parties not to fulfill their obligations wholly or partially, financial loss related to changes in credit spreads and credit note.

Since, financial assets of the Group mainly consist of government bonds which are not considered as a high credit risk and bank deposits in the banks resident in Turkey, credit risk is lower than other risk categories.

AGESA HAYAT VE EMEKLİLİK ANONİM ŞİRKETİ
(Formerly “AvivaSA Emeklilik ve Hayat Anonim Şirketi”)

NOTES TO THE CONSOLIDATED FINANCIAL INFORMATION
FOR THE PERIOD ENDED JUNE 30, 2021

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated.)

4. INSURANCE AND FINANCIAL RISK MANAGEMENT (Continued)

b) Credit Risk (Continued)

Maximum exposure to credit risk

The table below shows the maximum exposure to credit risk for the components of the consolidated financial informations:

	June 30, 2021	December 31, 2020
Financial assets	2,987,414,209	2,229,963,493
Cash and cash equivalents	988,095,029	994,041,049
Pension business receivables	217,771,706	197,580,785
Premium and other insurance receivables	35,334,332	35,330,094
Reinsurance share of insurance liabilities	12,724,736	10,949,619
Other financial assets	897,700	868,012
Total	4,242,237,712	3,468,733,052

c) Liquidity Risk

The Group faces the risk that its short-term assets are insufficient to meet its short-term obligations (such as claims arising from insurance contracts) as they fall due. To mitigate this risk, it uses liquidity coverage ratio “(LCR)” to monitor its liquidity risk profile on a 12-month basis. The monthly LCR is defined as (i) the projected amount of cash available at the start of the month divided by (ii) the planned net cash outflows during the month plus an allowance for a 1 in 10 stress event.

Liquidity risk refers to the risk that the Company's short-term liabilities, such as losses arising from insurance contracts, cannot be supplied by the short-term resources it holds. The company estimates the Liquidity Coverage Ratio (LCR) to monitor the liquidity risk and execute stress tests.

The company develops and monitors strategies, policies and procedures to ensure that liquidity risk is effectively managed in line with the liquidity risk appetite and that sufficient liquidity is maintained continuously, due to the worldwide coronavirus (COVID-19) outbreak.

As of 30 June 2021, the Company's non-discounted commercial debts and the maturities of financial debts are as follows, and there is no liquidity risk at present and for the future periods.

4. INSURANCE AND FINANCIAL RISK MANAGEMENT (Continued)

c) Liquidity Risk (Continued)

As at June 30, 2021, table of liquidity risk is as follows:

The following tables detail the Group’s remaining contractual maturity for its non-derivative financial assets and liabilities. The tables have been drawn up based on the undiscounted cash flows of financial assets and liabilities based on the earliest date on which the Group can be required to pay. The table includes both interest and principal cash flows. The undiscounted totals column includes the effect of the possible future cash flows attributable to the instrument included in the maturity analysis which are not included in the carrying amount of the financial liability on the information of financial position.

June 30, 2021	Carrying amount	Up to 1 month	1-3 months	3 months to 1 year	1-5 years	5 years and over	No maturity date	Undiscounted Totals

c) Liquidity Risk (Continued)

Fair value of the financial instruments

Fair value is the amount for which an asset could be exchanged or a liability settled between knowledgeable, willing parties in an arm’s length transaction in accordance with market conditions.

The Group determines the estimated fair value of its financial instruments by using the current market information and appropriate valuation methods. Additionally, ability to estimate the market values through assessing the market information requires interpretation and judgment. As a result, the estimations presented herein cannot be an indicator of the amounts obtained by the Group in a current market transaction.

Fair value hierarchy

Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties, other than in a forced sale or liquidation, and is best evidenced by a quoted market price, if one exists. Fair value measurements are performed in accordance with the following fair value measurement hierarchy.

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).

Level 3: Inputs for the asset or liability that is not based on observable market data (that is, unobservable inputs).

4. INSURANCE AND FINANCIAL RISK MANAGEMENT (Continued)

d) Operational Risk

Operational risks consist of all other risks that may cause financial loss or loss of reputation to the Group and may result from the potential failure of the people, processes and technology employed in taking and managing risks. Operational risks that Company faces include the following:

- Regulatory reporting defects regarding pension and life;
- Defects due to incapability of the IT infrastructure; and
- Deficiencies in internal control systems.

The Group regards tight control over its IT systems as a strategic necessity. The Group aims to strengthen its central IT organization and the strategic information management function to increase the effectiveness of the general IT controls and to reduce costs through, for example, the improvement of existing IT systems. The IT systems require many ongoing adjustments because of legislative changes and chain integration.

Operational risks are detailed in the Group’s risk tracking system, called OPERA, which is updated to reflect changes in the operating environment and its business processes.

Capital Management

In accordance with the regulations on capital requirements within the framework of the “Regulation on Measurement and Evaluation of Capital Requirements of Insurance and Reinsurance and Pension Companies” published in the Official Gazette dated 23 August 2015 no. 29454 of the SEDDK, the purpose of the Company's capital management is to create and maintain a strong capital structure to sustain the operations of the Company and to maximize the value it provides to the Company's partners.

As of June 30, 2021 and December 31, 2020, the Company has a sufficient amount of equity for losses which may arise from current liabilities and potential risks of the Company. As of June 30, 2021 and December 31, 2020, the required capital reserves (calculated in accordance with the above-mentioned local regulation) and current capital adequacy analysis is as follows:

	June 30, 2021	December 31, 2020
Total shareholders’ equity in the statutory consolidated financial informations (*)	759,942,775	722,469,731
Required minimum capital reserves	431,383,826	369,206,991
Capital surplus	328,558,949	353,262,740

(*) Excluded equalization reserve.

In accordance with the regulations on capital requirements within the framework of the “Regulation on Measurement and Evaluation of Capital Requirements of Insurance and Reinsurance and Pension Companies” published in the Official Gazette dated 23 August 2015 no. 29454 of SEDDK, the purpose of the Company's capital management is to create and maintain a strong capital structure to sustain the operations of the Company and to maximize the value it provides to the Company's partners.

The company has a strong capital structure with a long-term sustainable profitability target. In this period, with frequent market fluctuations, the Company's capital adequacy ratio is also closely monitored and regularly subjected to stress tests.

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated.)

16. OTHER PROVISIONS

As at June 30, 2021 and December 31, 2020; provision for expenses and lawsuit provisions are as follows:

	June 30, 2021	December 31, 2020
Personnel bonus provision	23,523,029	27,035,574
Provision for lawsuit against the Group (Note 34)	11,318,274	11,366,186
Bonus provision for sales activities	6,343,169	7,467,324
Commission provision	5,929,651	6,967,000
	47,114,123	52,836,084

17. TAXES

Corporate taxes

Statutory income is subject to corporate tax at 25% (2020: 22%). This rate is applied to accounting income modified for certain exemptions (like dividend income) and deductions (like investment incentives), and additions for certain non-tax deductible expenses and allowances for tax purposes. If there is no dividend distribution planned, no further tax charges are made.

Dividends paid to the resident institutions and the institutions working through local offices or representatives are not subject to withholding tax. Withholding tax rate on the dividend payments other than the ones paid to the non-resident institutions generating income in Turkey through their operations or permanent representatives and the resident institutions is 15%. In applying the withholding tax rates on dividend payments to the non-resident institutions and the individuals, the withholding tax rates covered in the related Double Tax Treaty Agreements are taken into account. Appropriation of the retained earnings to capital is not considered as profit distribution and therefore is not subject to withholding tax.

In the Official Gazette dated April 22, 2021 and numbered 31462, the Law No. 7316 on the procedure for the collection of public receivables and Law Amending Certain Laws has been published and the Provisional Article 13 has been added to the Corporate Tax Law with the 11th article of the stated Law. Corporate tax rate of 20% with the added item will be applied as;

- 25% for corporate earnings for the 2021 taxation period.
- 23% for corporate earnings for the 2022 taxation period.

The respective rate increase came into effect on April 22, 2021, starting from the declarations that must be valid for the corporate earnings for the taxation period starting from January 1, 2021.

Corporate tax is declared until the evening of the twenty-fifth of the fourth month following the end of the relevant accounting period and is paid in one installment until the end of the relevant month. In accordance with the tax legislation, the temporary tax will be calculated at a rate of 25% (2020: 22%), starting from the 2nd period advance tax return for the 2021 period, over the earnings generated in quarterly periods, and the amounts paid will be deducted from the tax calculated on the annual earnings.

In accordance with the tax legislation, tax losses can be carried forward to offset against future taxable income for up to five years. Tax losses cannot be carried back to offset profits from previous years.

In Turkey, there is no procedure for a final and definite agreement on tax assessments. Companies file their tax returns with their tax offices by the end of the 25th day of the fourth month following the close of the accounting period to which they relate. Tax returns are open for five years from the beginning of the year that follows the date of filing during which time the tax authorities have the right to audit tax returns, and the related accounting records on which they are based, and may issue re-assessments based on their findings.

17. TAXES (Continued)

Deferred taxes (Continued)

Movement of deferred tax liabilities for the period ended June 30, 2021 and 2020 are as follows:

	2021	2020
Opening balance, January 1	(94,352,699)	(57,708,907)
ROP DAC impact (*)	-	(13,314,930)
Charged to profit or loss	484,731	4,396,568
Cancellation available for sale financial assets that are recognized in shareholders' equity of deferred tax assets	7,600,141	(1,086,924)
Deferred tax asset /(liability) recognized in other comprehensive income due to fair value losses on available for sale financial assets	(949,013)	4,618,833
Fair Value - IRR corporate tax rate change effect	(109,634)	-
Deferred tax asset of actuarial loss on employment termination provision	318,729	447,067
Closing balance, June 30	(87,007,745)	(62,648,293)

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial informations. Deferred income tax assets and liabilities are determined using tax rates and tax legislation that has been enacted at the information of financial position date and is expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

There are no unrecognized deferred tax assets in the periods presented.

(*) Effects of ROP DAC impact has been explained in Note 1.1.

Income tax expenses for the period ended June 30, 2021 and June 30, 2020; are as follows:

	January 1 - June 30, 2021	January 1 - June 30, 2020
Income tax expense recognized in profit or loss:		
- Current tax charge	(93,613,374)	(46,531,658)
- Deferred tax charge	482,581	4,396,509
Adjustments recognized in the period for current tax of prior periods	5,591,173	3,819,622
Income tax expense	(87,539,620)	(38,315,527)

The total provision for taxes on income is different than the amount computed by applying the Turkish statutory tax rate of 25 (2020: 22%) to income before provision for taxes as shown in the following reconciliation:

	January 1 - June 30, 2021	January 1 - June 30, 2020
Profit before taxes	345,279,953	169,323,713
Tax rate	25%	22%
Taxes on income per statutory tax rate	(86,319,988)	(37,251,217)
Revenue that is exempt from taxation	2,051,236	(1,061,717)
Non-deductible expenses, net	(3,270,868)	(2,593)
Income tax expense	(87,539,620)	(38,315,527)

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated.)

18. EMPLOYMENT TERMINATION BENEFITS

	June 30, 2021	December 31, 2020
Provision for employment termination benefits	24,397,153	21,040,315
Total	24,397,153	21,040,315

Under Turkish Labour Law, the Group is required to pay termination benefits to each employee who has completed one year of service and whose employment is terminated without due cause, is called up for military service, dies or who retires after completing 25 years of service and attains the retirement age.

The amount payable consists of one month's salary limited to a maximum of TL 7,639 (December 31, 2020: TL 7,117) for each year of service as of June 30, 2021.

IAS 19 requires actuarial valuation methods to be developed to estimate the enterprise's obligation; the provision has been calculated by using projection method. The provision has been calculated by estimating the present value of the future probable obligation of the Group arising from the retirement of the employees. Accordingly, the following actuarial assumptions were used in the calculation of the total liability:

	June 30, 2021	December 31, 2020
Estimated yearly salary increase rate	8.50%	8.50%
Yearly discount rate	13.50%	13.50%

The movement in the provision for employment termination benefits in the current period is as follows:

	2021	2020
Opening balance, January 1	21,040,315	15,971,826
Paid during the period	(813,211)	(781,099)
Service cost	1,145,559	867,855
Interest cost	1,420,095	1,015,688
Actuarial loss	1,604,395	2,032,122
Closing balance, June 30	24,397,153	19,106,392

19. DEFERRED EXPENSES

As at June 30, 2021 and 2020; movements of deferred expenses are as follows:

	2021	2020
Deferred acquisition costs, gross January 1	501,416,003	444,609,469
Acquisition costs deferred during the period	101,086,888	74,151,031
Amortization	(62,854,945)	(68,582,080)
Deferred acquisition costs - June 30	539,647,946	450,178,420
Deferred commission costs, gross January 1	31,312,514	33,578,846
Commission cost deferred during the period	(6,887,358)	(4,115,061)
Deferred commission costs - June 30	24,425,156	29,463,785
Total deferred expenses	564,073,102	479,642,205

(December 31, 2020: 1,997,764) have been included in the above mentioned mathematical reserve table.

Claims development tables

The claims provision is sensitive to some key assumptions. The sensitivity of certain assumptions like legislative change, uncertainty in the estimation process, etc., is not possible to quantify. Furthermore, because of delays that arise between occurrence of a claim and its subsequent notification and eventual settlement, the outstanding claim provisions are not known with certainty at the reporting date.

Consequently, the ultimate liabilities will vary as a result of subsequent developments. Differences resulting from reassessment of the ultimate liabilities are recognized in subsequent consolidated financial informations.

As at June 30, 2021; claim development table of the Group is as follows:

Accident year	2014 and earlier	2015	2016	2017	2018	2019	2020	2021	Total
Current estimate of claims

FOR THE PERIOD ENDED JUNE 30, 2021

(Amounts expressed in Turkish Lira (“TL”) unless otherwise indicated.)

22. EQUITY (Continued)

Profit and other capital reserves (Continued):

Retained earnings as per the statutory consolidated financial informations, other than legal reserve requirements as referred below, are available for distribution. The legal reserves consist of first and second reserves, appropriated in accordance with the Turkish Commercial Code. The Turkish Commercial Code stipulates that the first legal reserve is appropriated out of statutory profits at the rate of 5% per annum, until the total reserve reaches 20% of the Group’s paid-in share capital. The second legal reserve is appropriated at the rate of 10% per annum of all cash distributions in excess of 5% of the paid-in share capital. Under the Turkish Commercial Code, the legal reserves can only be used to offset losses unless they exceed 50% of paid-in share capital and are not available for any other usage.

Profit reserves

As at June 30, 2021 and December 31, 2020; details of profit reserves is as follows:
