

Q3 2019 EARNINGS RELEASE

While continuing our leadership in Pension, we also maintained a sustainable growth in Life

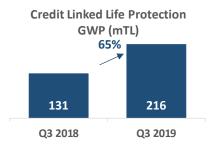

- Total protection premiums grew by 49% driven by both 65% growth in credit linked and 50% growth in stand-alone (non-credit linked) life protection underpinning AvivaSA's diverse business model
- The Pension Assets Under Management-AuM has grown by 19% and reached 20.3 billion TL by the end of September 19 supporting AvivaSA to maintain the market leadership since June 2015
- Auto Enrolment AuM increased by 85% with the increasing IF volume. AvivaSA is the leader company in terms of private sector participants. AvivaSA ranked 2nd in both number of AE participants and AuM excluding public companies.
- IFRS Net Profit is higher than prior year by 18% at 176.7 mTL driven by mainly healthy underwriting margins from the protection book and financial income in a high interest environment
- Total technical income has increased by 12% driven by the growth in life protection volumes.
- RoE is 36.6% as of September 2019.
- Statutory profit is 169.5 mTL with a growth of 19% at a path to converging to IFRS profits indicating the quality of underlying earnings

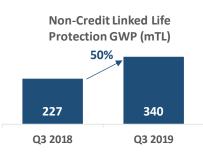

Key Developments and Changes in 2019

- Accounting policy change in IFRS Financials: Inclusion of RoP bank commissions to the scope of deferral. Previous years' impact of 8.3m TL booked to the opening of 2019 financials as the amount is below the materiality level for restatement of prior year financials. Current year net P&L, after tax impact is +14.3 mTL.
- Accounting estimate change in IFRS financials: Average life-time of pension business is reduced from 9 to 8 years. Net P&L (after tax) impact in Q3 2019 financials is -3.1 mTL.
- New accounting standard IFRS16: Effective from 1 January 2019. Net P&L (after tax) impact in Q3 2019 financials is -1.4 mTL.

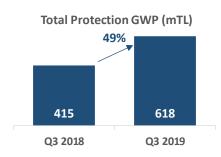

Topline Volumes

 Total Protection gross written premiums reached 618 mTL; higher than prior year by 49% continuing the momentum in a sustainable manner

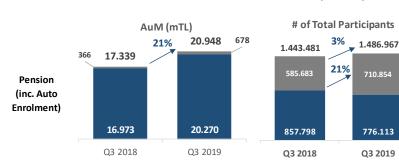

- AvivaSA is the market leader in terms of Pension AuM since June 2015
- Supported by the strong fund return performance (22,6% last 1 year pension plan return) in a volatile market
- Total AuM reached 20.9 bnTL with 1.5m participants (pension + auto enrolment)

Source: Company data, unaudited results

- > Sales as measured by present value of new business premiums (PVNBP) for pensions is lower compared to last year mainly due to completion of auto-enrolment phases.
- ➤ Life protection PVNBP is up by 124.5% driven primarily by return of premium business and the launch of long-term credit linked life protection product.
- > Value of new business has increased year-on-year thanks to life protection sales dominated by credit life protection and return of premium product.
- Overall VNB margin has increased year-on-year primarily due to mix of new business. Sales mix has shifted more towards protection business from pension business.
